WELEARN GROWTH HUB · STAFF TESTING · OCTOBER 2026

Parent dashboard

Family view of a child's learning. Work through each step on the real platform, compare what you see with the screenshot, and record what happened. Fill this PDF in on screen, save it, and send it back to the test lead. Or print it and write by hand.

Platform	https://dnd-master-73449.web.app
Sign in as	`parent.test@school.edu` (Parent Test · parent of Mia Chen)
Password	The test lead gives you the shared test password.
Steps	6 steps, about 24 minutes

Your details

Your name

Team or role

Device (laptop, tablet, phone)

Browser

Date tested

Before you start

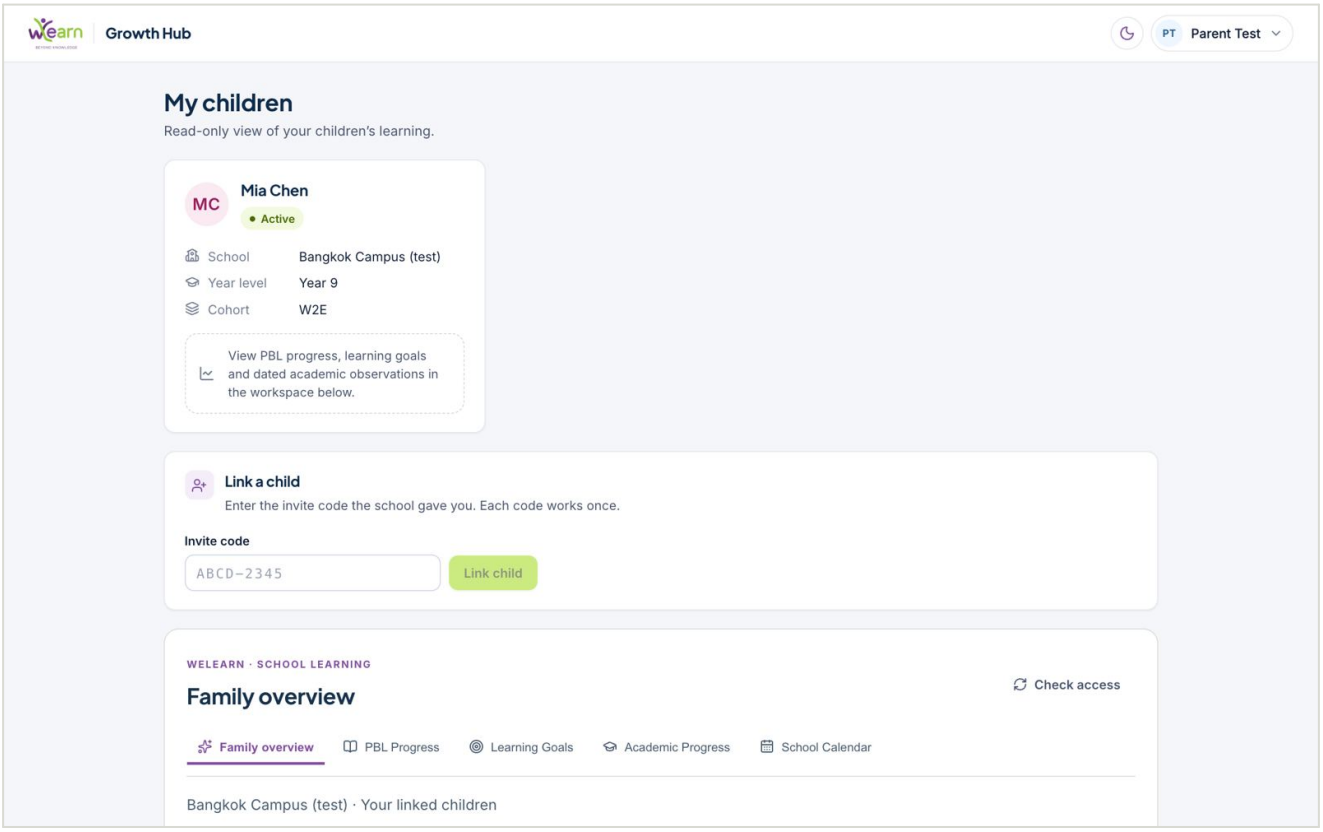

1. Do not change the password on any test account. Others share it.
2. Do not suspend, unlink or delete accounts unless a step tells you to.
3. Use only made-up names and test emails in forms, never real learner data.
4. If a screen looks different from the screenshot, that is useful. Mark it and describe the difference.
5. Use a private or incognito window so you stay signed in to one account at a time.

How to mark each step

Pass	It worked and matched "You should see".
Issue	Something was wrong, slow, confusing or different. Describe it.
Blocked	You could not do the step at all, for example an error or a missing button.
Skip	You chose not to test it, or it needs another tester first.

PARENT · STEP 1 OF 6

My children

Real screenshot from the platform. Yours may show different data.

What to do

1. Sign in as `parent.test@school.edu`.
2. Read Mia's card: school, year level and cohort.

YOU SHOULD SEE

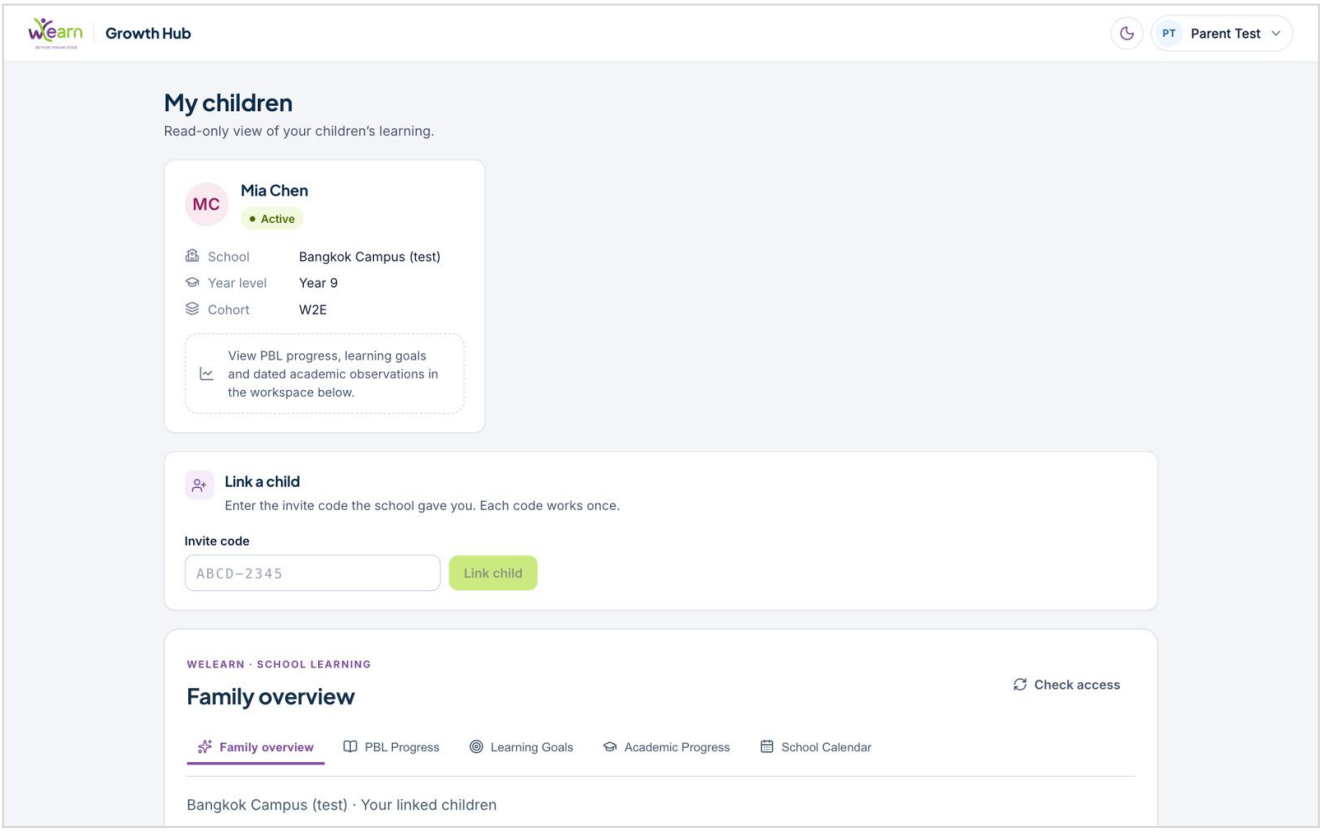

Mia Chen shows as Active at Bangkok Campus, Year 9. The page says it is a read-only view.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

PARENT · STEP 2 OF 6

Link a child with an invite code

Real screenshot from the platform. Yours may show different data.

What to do

1. Get an invite code from an admin tester (Admin step 2).
2. Type it into **Invite code** and click **Link child**.
3. Also try a made-up code such as ABCD-2345.

YOU SHOULD SEE

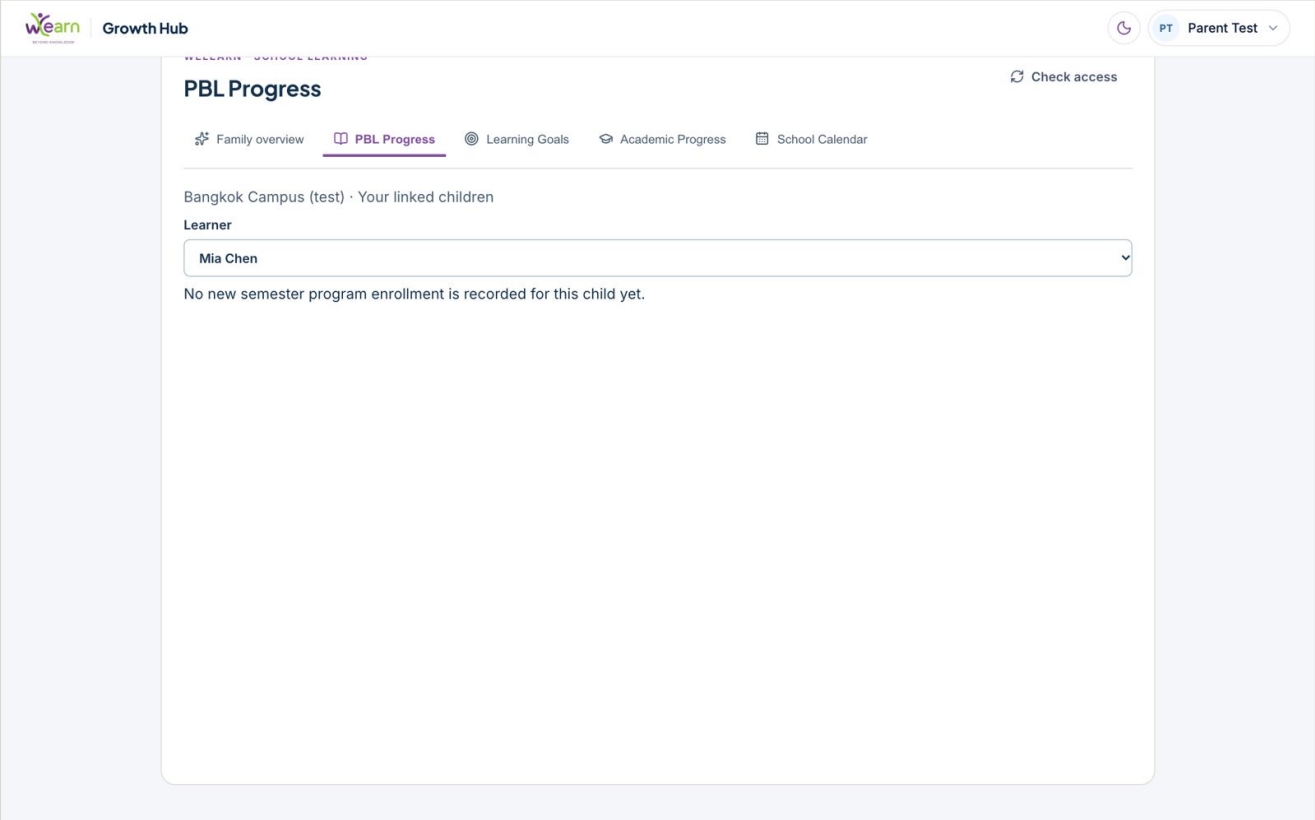

A real code links the child once. A wrong code gives a clear message about what went wrong.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

PARENT · STEP 3 OF 6

Family overview and PBL progress

Real screenshot from the platform. Yours may show different data.

What to do

1. Read the **Family overview** tab.
2. Open **PBL Progress** and choose Mia.

YOU SHOULD SEE

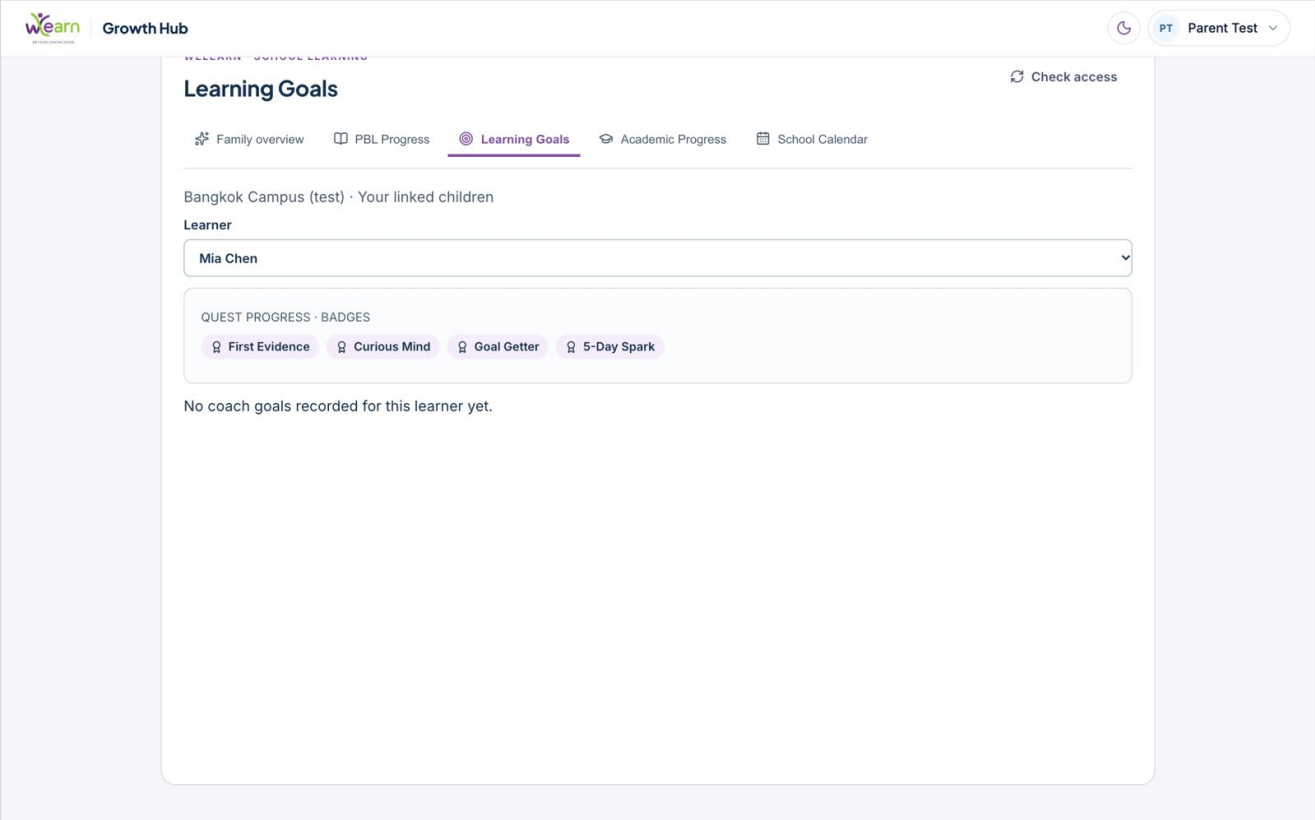

Plain language a parent understands. Empty areas say nothing is recorded yet.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

PARENT · STEP 4 OF 6

Learning goals and badges

Real screenshot from the platform. Yours may show different data.

What to do

1. Open **Learning Goals** and choose Mia.
2. Look at the badges and any goal a coach tester assigned.

YOU SHOULD SEE

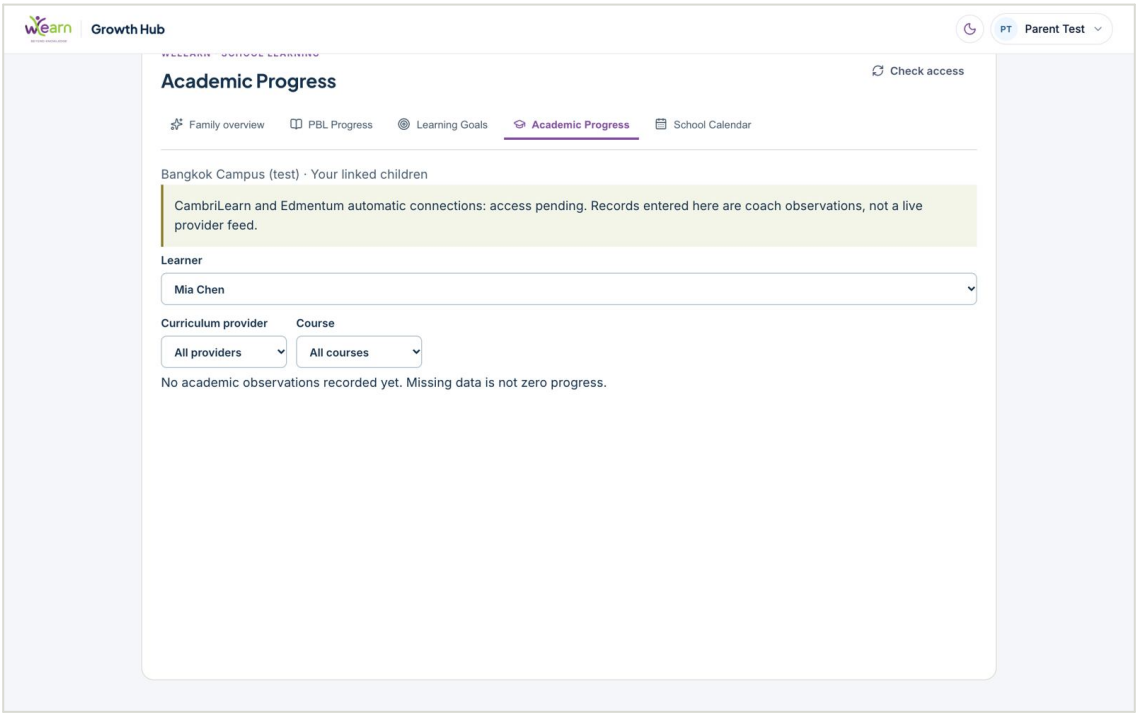

Badges such as First Evidence and Curious Mind show. Coach-assigned goals appear here.

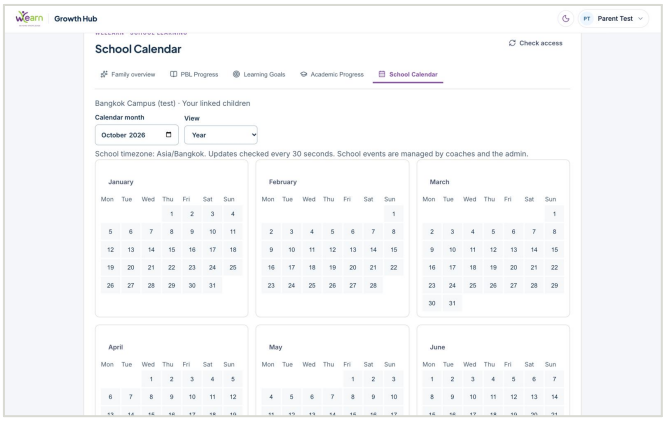

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

PARENT · STEP 5 OF 6

Academic progress and calendar

Real screenshot from the platform. Yours may show different data.

What to do

1. Open **Academic Progress**, then **School Calendar**.

YOU SHOULD SEE

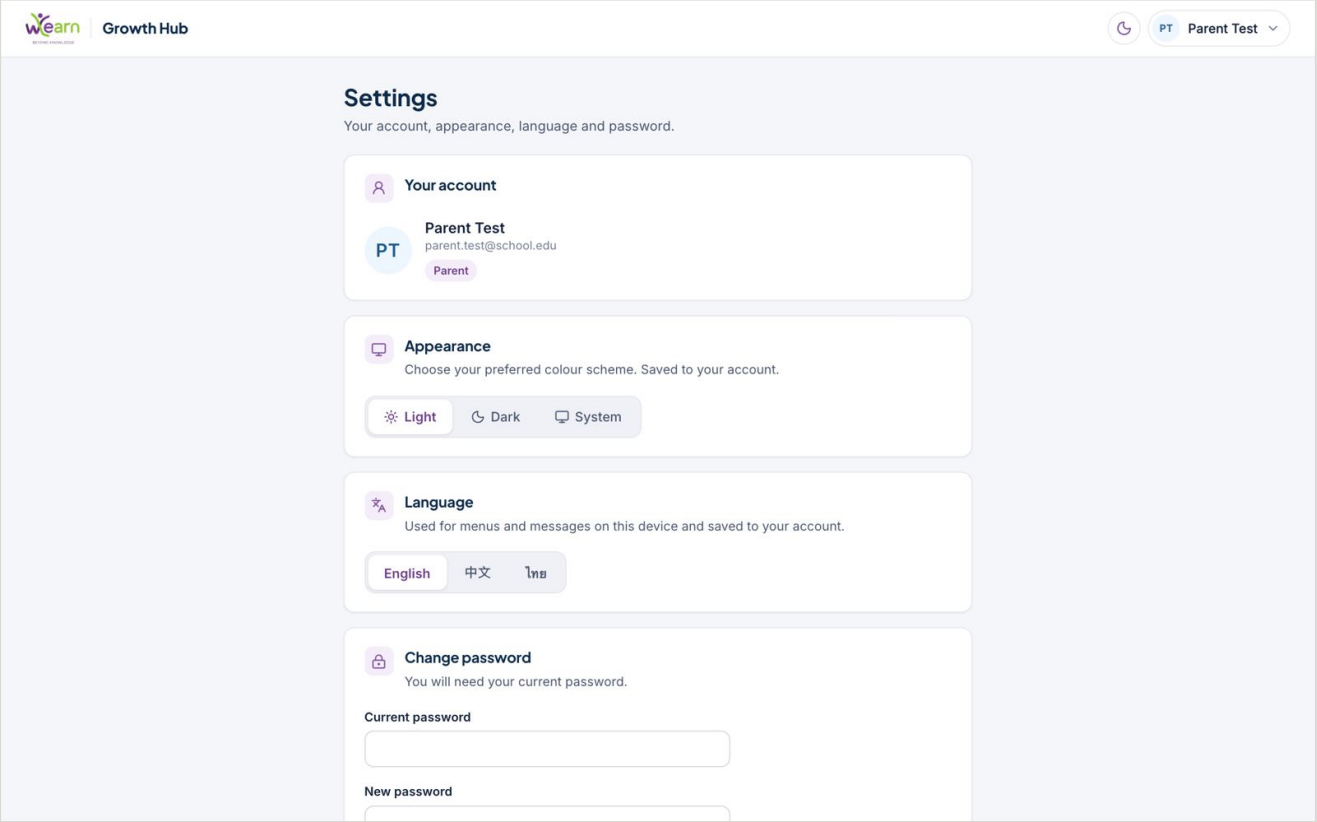

Coach observations show with dates. Upcoming school events are listed.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

PARENT · STEP 6 OF 6

Settings, language and read-only check

Real screenshot from the platform. Yours may show different data.

What to do

1. Open Settings and switch language to Thai, then back.
2. Go back through every tab and look for anything a parent could change by mistake.

YOU SHOULD SEE

Language switches cleanly. Parents cannot edit their child’s learning anywhere.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

LAST PAGE

Wrap-up: the Parent dashboard overall

A few sentences is plenty. These answers help us decide what to fix first.

How easy was it to use? 1 Very hard 2 Hard 3 OK 4 Easy 5 Very easy

What worked well?

What was confusing, slow or missing?

If we fix one thing first, what should it be?

Anything else?

WHEN YOU HAVE FINISHED

Save this PDF (File > Save), keep the file name, and send it to the test lead. If you printed it, scan or photograph each page.
