WELEARN GROWTH HUB · STAFF TESTING · OCTOBER 2026

Admin dashboard

Administrator and supervisor console. Work through each step on the real platform, compare what you see with the screenshot, and record what happened. Fill this PDF in on screen, save it, and send it back to the test lead. Or print it and write by hand.

Platform	https://dnd-master-73449.web.app
Sign in as	`admin.test@school.edu` (Admin Test · Administrator)
Also	`supervisor.test@school.edu` for the last step
Password	The test lead gives you the shared test password.
Steps	11 steps, about 44 minutes

Your details

Your name

Team or role

Device (laptop, tablet, phone)

Browser

Date tested

Before you start

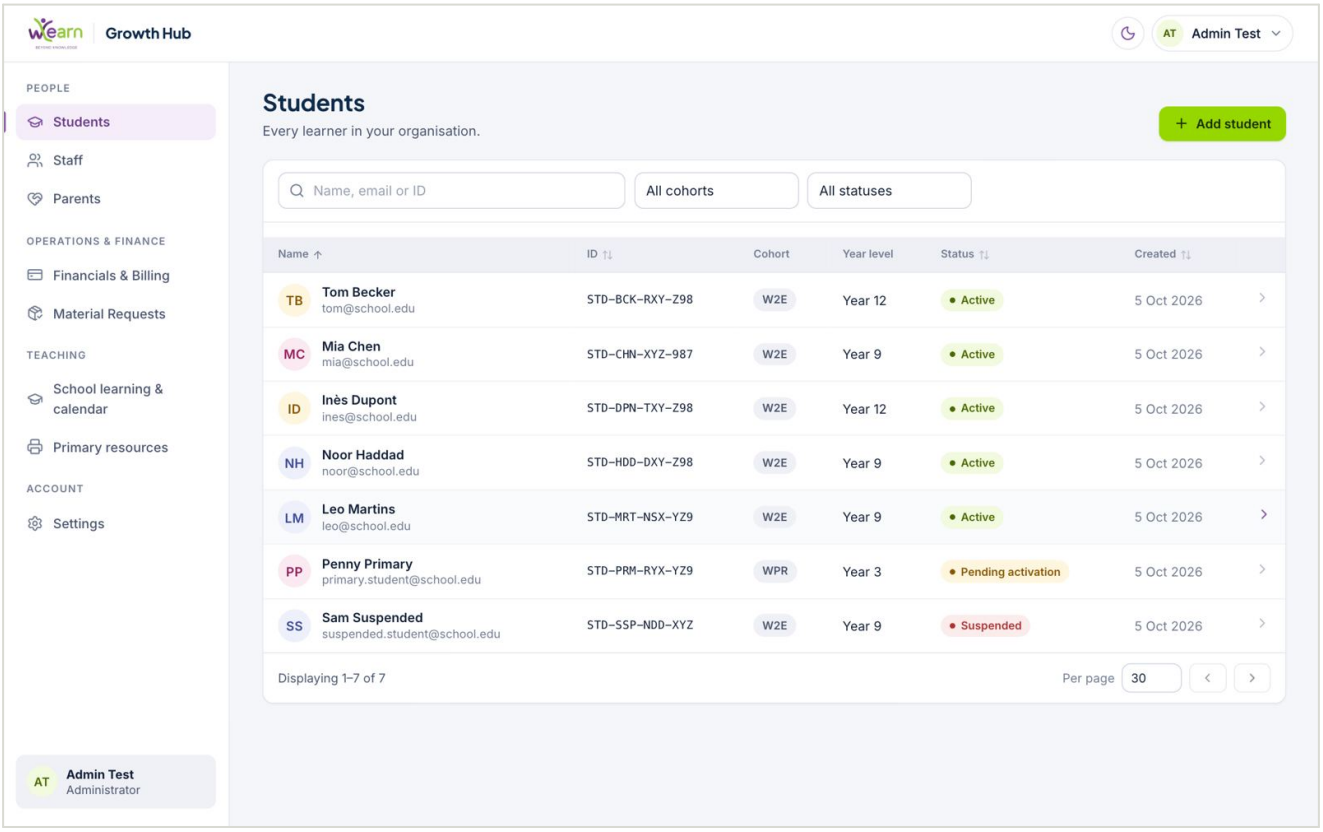

1. Do not change the password on any test account. Others share it.
2. Do not suspend, unlink or delete accounts unless a step tells you to.
3. Use only made-up names and test emails in forms, never real learner data.
4. If a screen looks different from the screenshot, that is useful. Mark it and describe the difference.
5. Use a private or incognito window so you stay signed in to one account at a time.

How to mark each step

Pass	It worked and matched “You should see”.
Issue	Something was wrong, slow, confusing or different. Describe it.
Blocked	You could not do the step at all, for example an error or a missing button.
Skip	You chose not to test it, or it needs another tester first.

ADMIN · STEP 1 OF 11

Students list

Real screenshot from the platform. Yours may show different data.

What to do

1. Sign in as `admin.test@school.edu`.
2. Search for “Mia”. Filter by cohort W2E and by status.
3. Sort by Name and by Created. Change “Per page”.

YOU SHOULD SEE

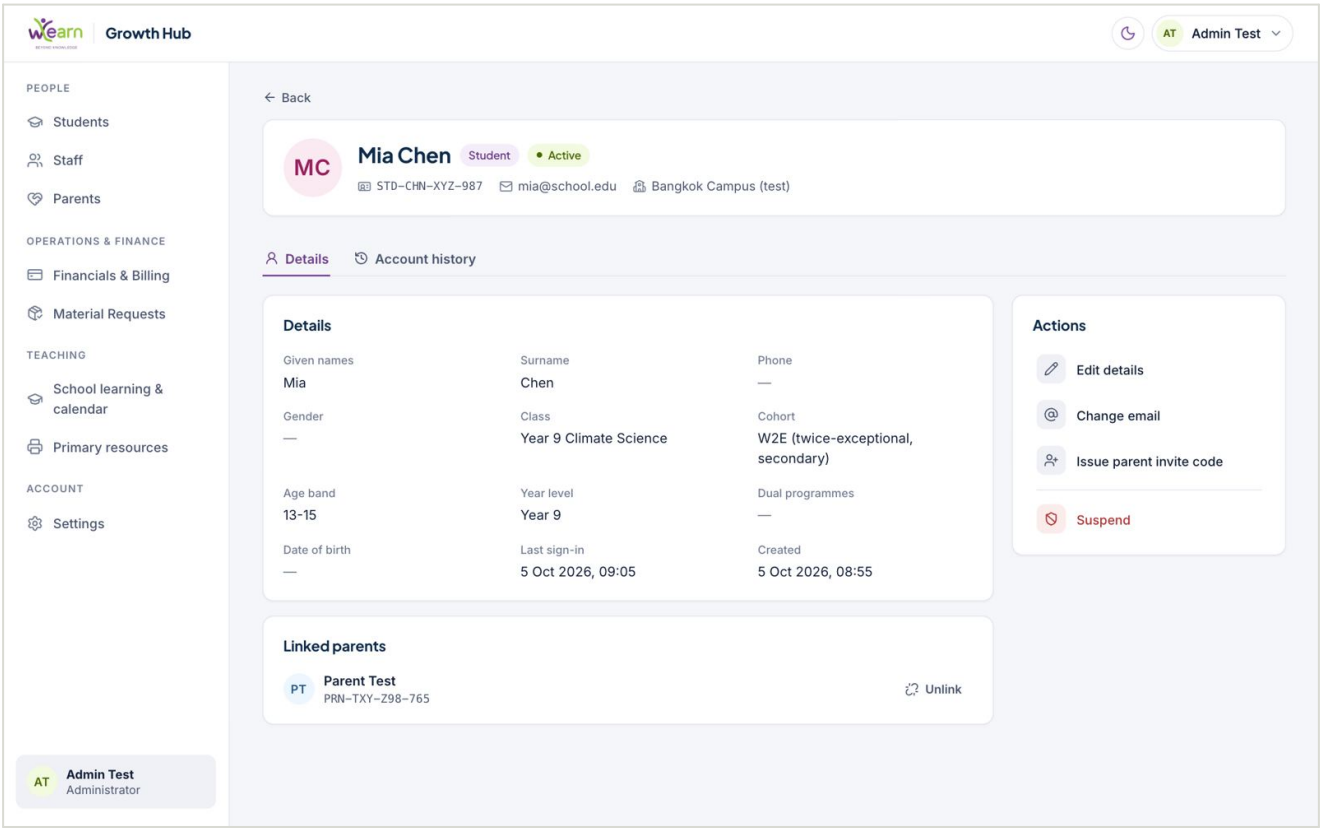

Every filter and sort changes the list. The row count at the bottom matches.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 2 OF 11

A student record

Real screenshot from the platform. Yours may show different data.

What to do

1. Open Mia Chen.
2. Read Details, then open **Account history**.
3. Check **Linked parents** shows Parent Test.
4. Click **Issue parent invite code** and copy the code for the parent tester. Do not press Suspend or Unlink.

YOU SHOULD SEE

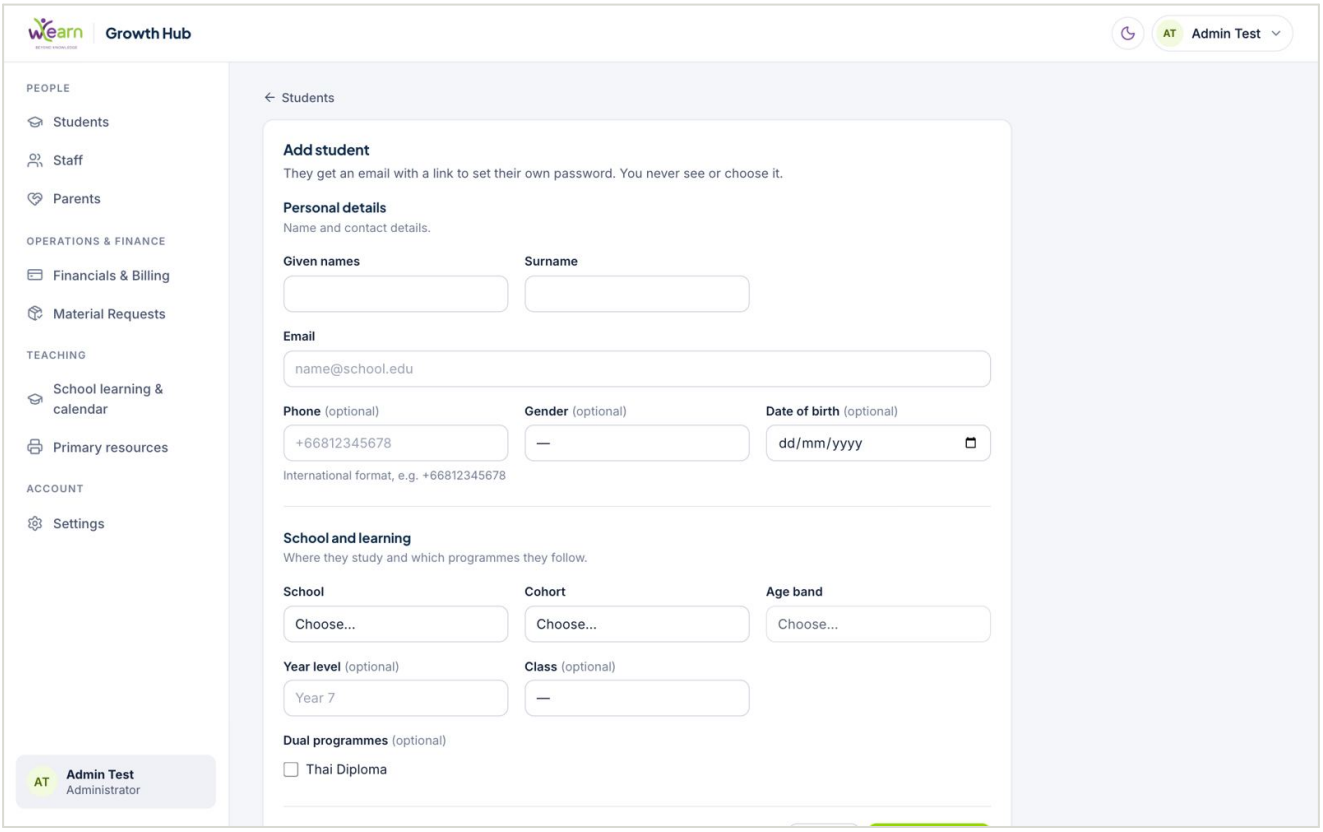

All fields are filled where data exists, with dashes for empty ones. An invite code is shown once.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 3 OF 11

Add a student (form check)

Real screenshot from the platform. Yours may show different data.

What to do

1. Go back to Students and click **Add student**.
2. Click **Create account** with the form empty and read the error messages.
3. Fill in a made-up learner with a test email. Only press Create account if the test lead says so, otherwise click Cancel.

YOU SHOULD SEE

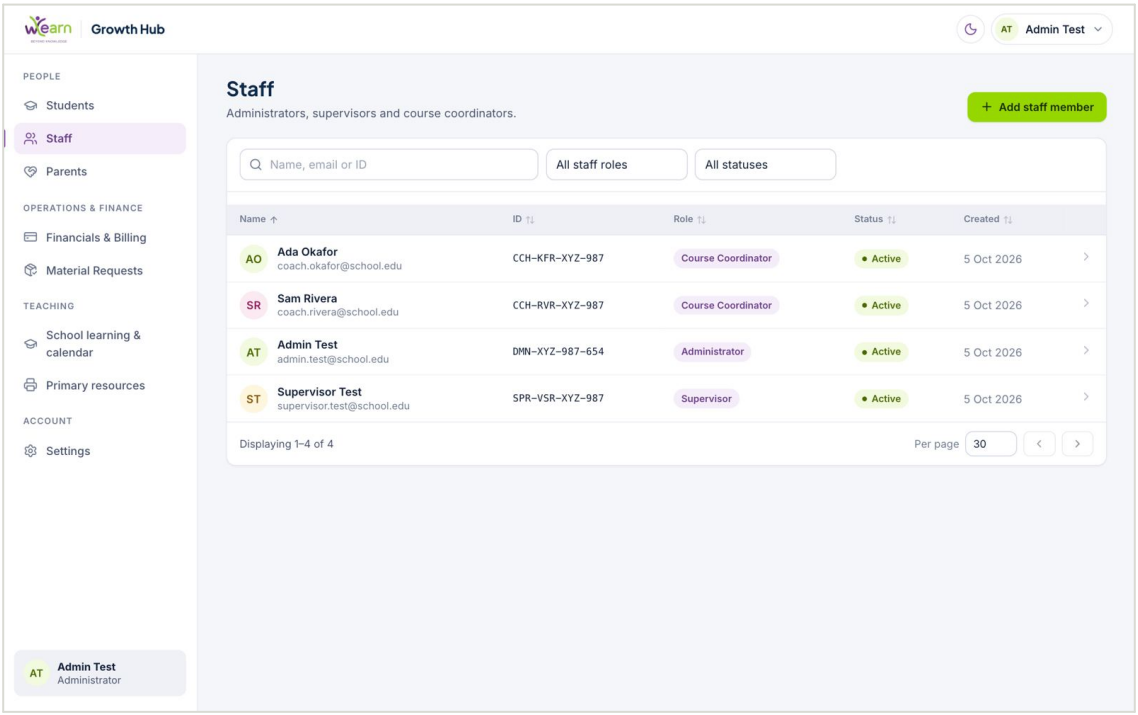

Required fields are clearly marked and errors say exactly what to fix. The page explains the learner sets their own password by email.

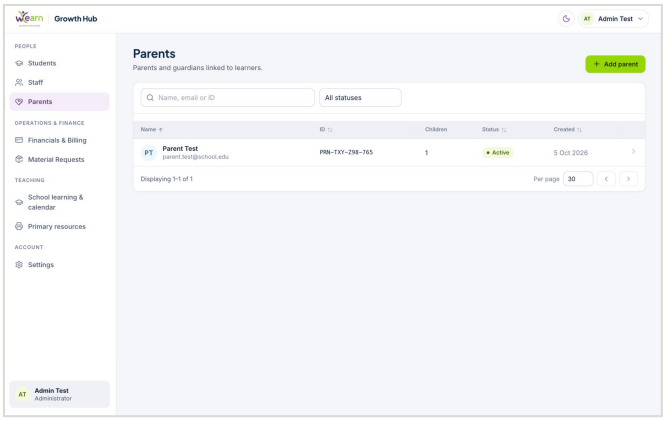

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 4 OF 11

Staff and parents lists

Real screenshot from the platform. Yours may show different data.

What to do

1. Open **Staff** and filter by Role.
2. Open **Parents** and check the number of children shown for Parent Test.

YOU SHOULD SEE

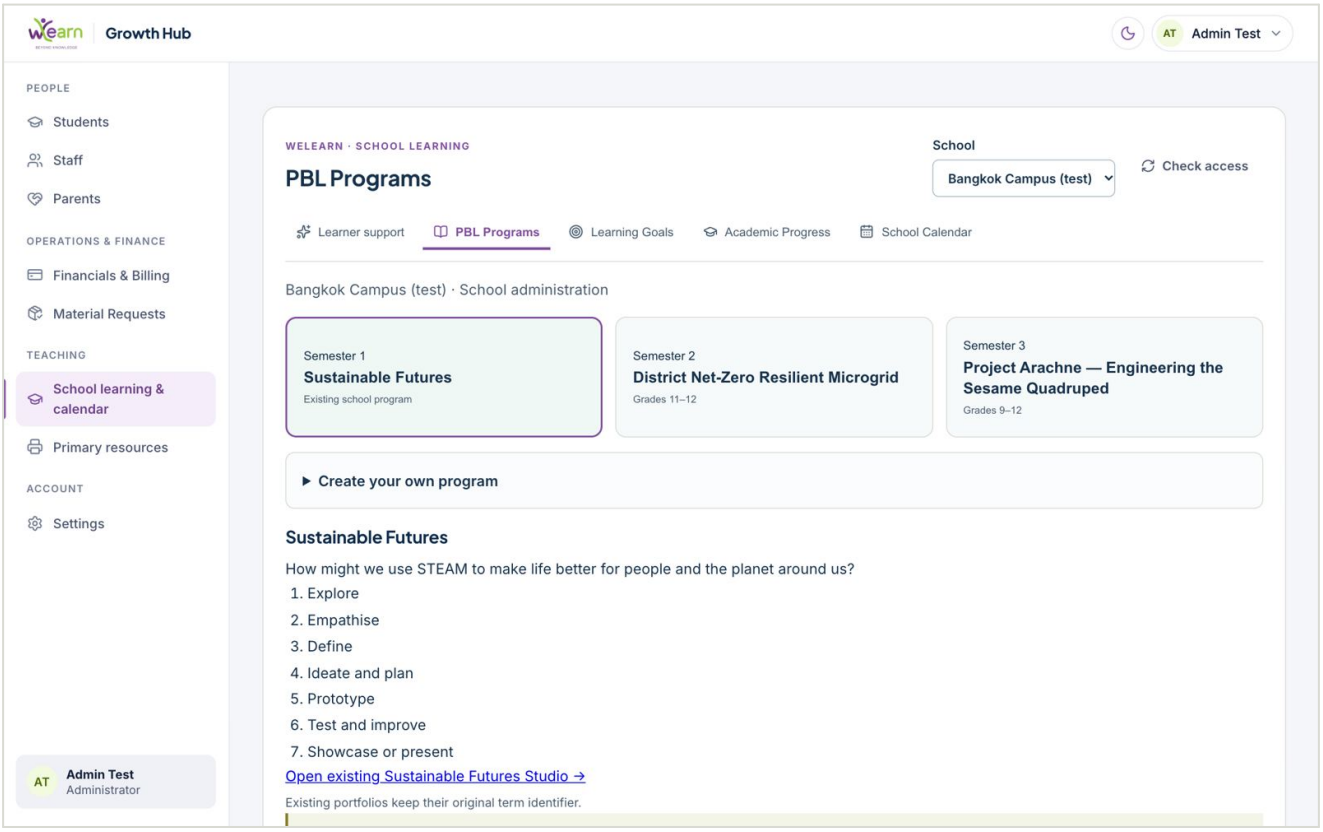

Coaches show as Course Coordinator. Parent Test shows one linked child.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 5 OF 11

School learning: PBL programmes

Real screenshot from the platform. Yours may show different data.

What to do

1. Open **School learning & calendar**.
2. Switch School between Bangkok Campus and Online School.
3. Read the three semester offerings and the Create offering form.

YOU SHOULD SEE

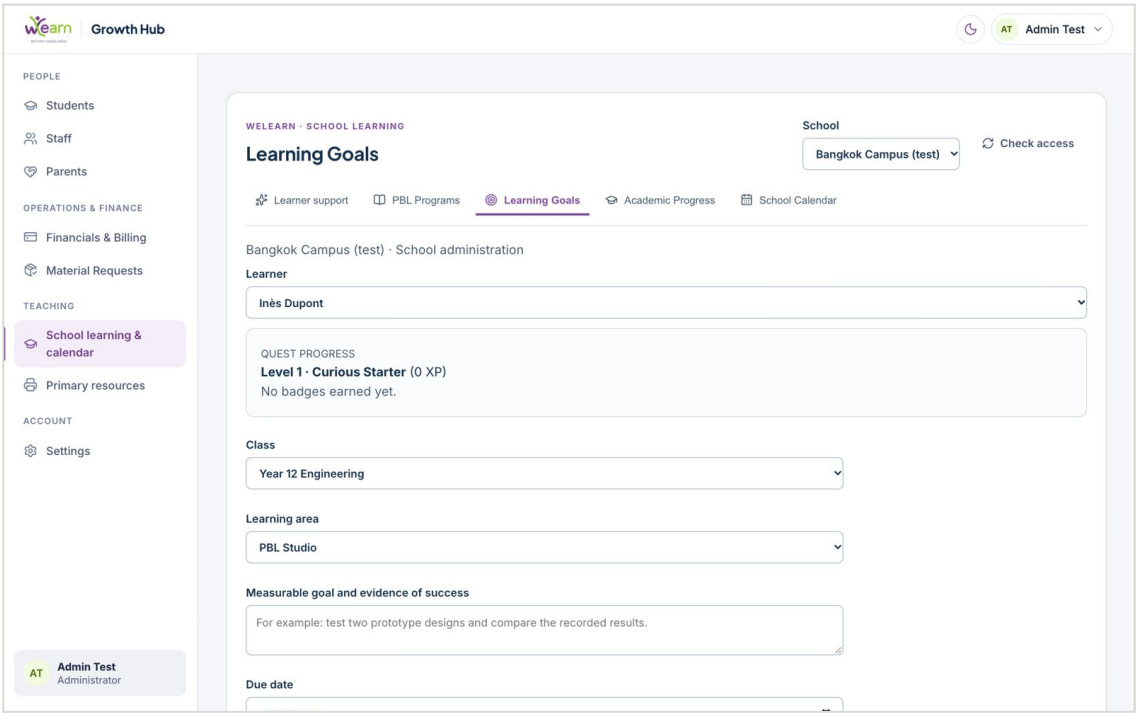

Offerings load for each school and the create form is clear.

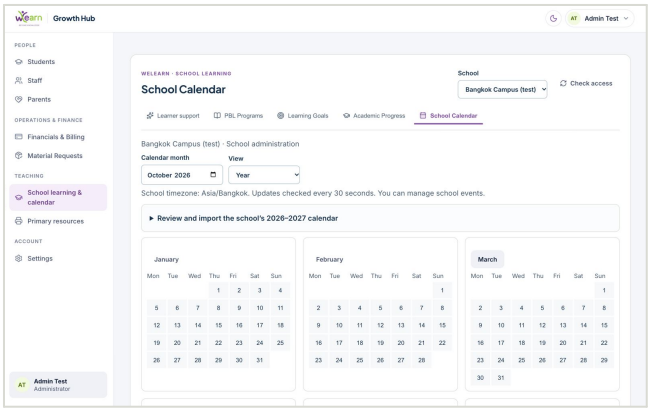

Result: Pass Issue Blocked Skip

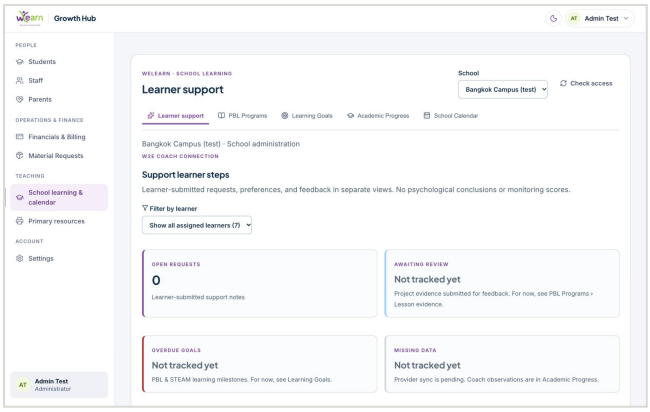

What happened? What did you click, expect and see instead?

ADMIN · STEP 6 OF 11

Learning goals, calendar and learner support

Real screenshot from the platform. Yours may show different data.

What to do

1. Open the **Learning Goals** tab and choose a learner.
2. Open **School Calendar** and look at **Review and import the school's 2026–2027 calendar**. Do not import unless asked.
3. Open **Learner support** and filter by learner.

YOU SHOULD SEE

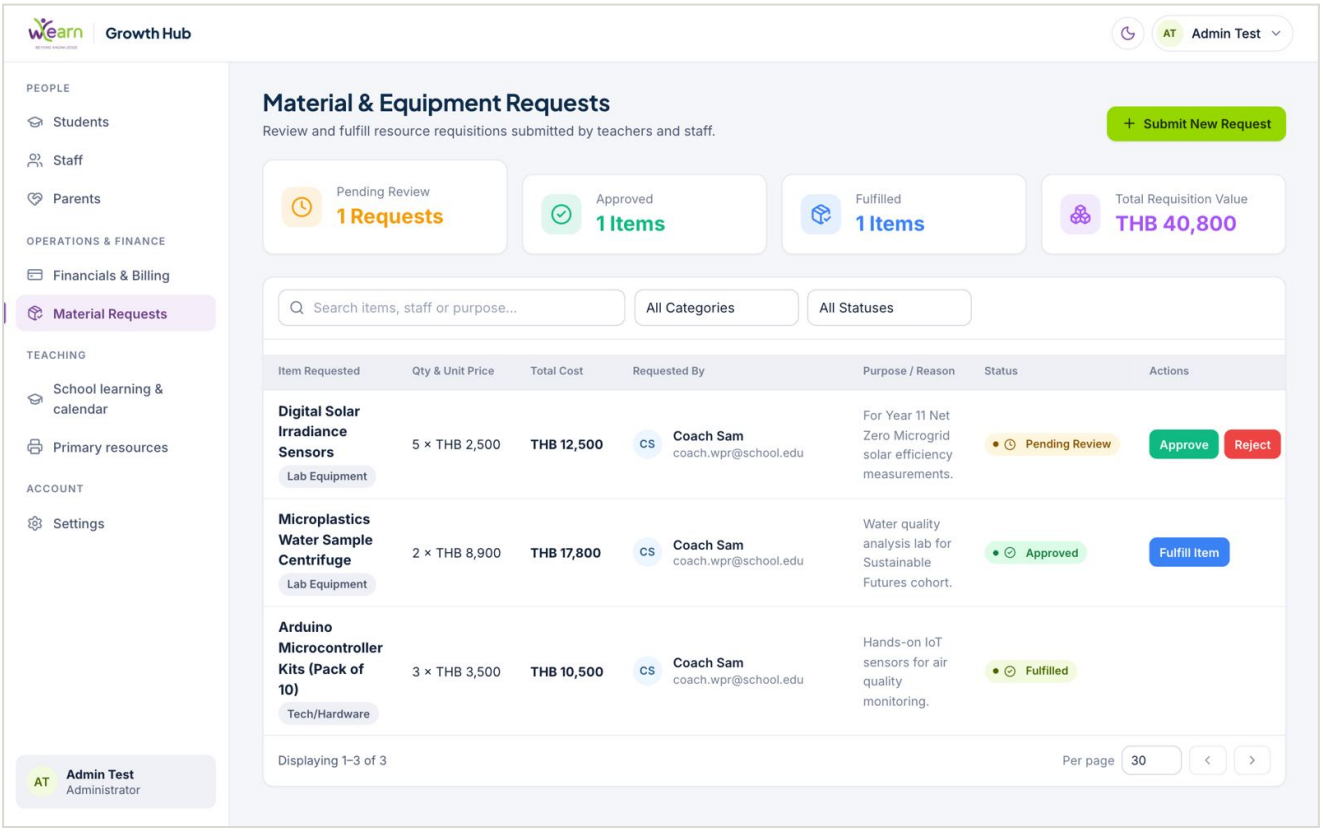

Each tab loads with the learners of the chosen school. Support requests sent by student testers appear under Open requests.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 7 OF 11

Material requests

Real screenshot from the platform. Yours may show different data.

What to do

1. Open **Material Requests**. Read the four totals at the top.
2. Filter by Category and Status.
3. Click **Submit New Request** and add a small test item.
4. Approve, reject or fulfil only your own test item.

YOU SHOULD SEE

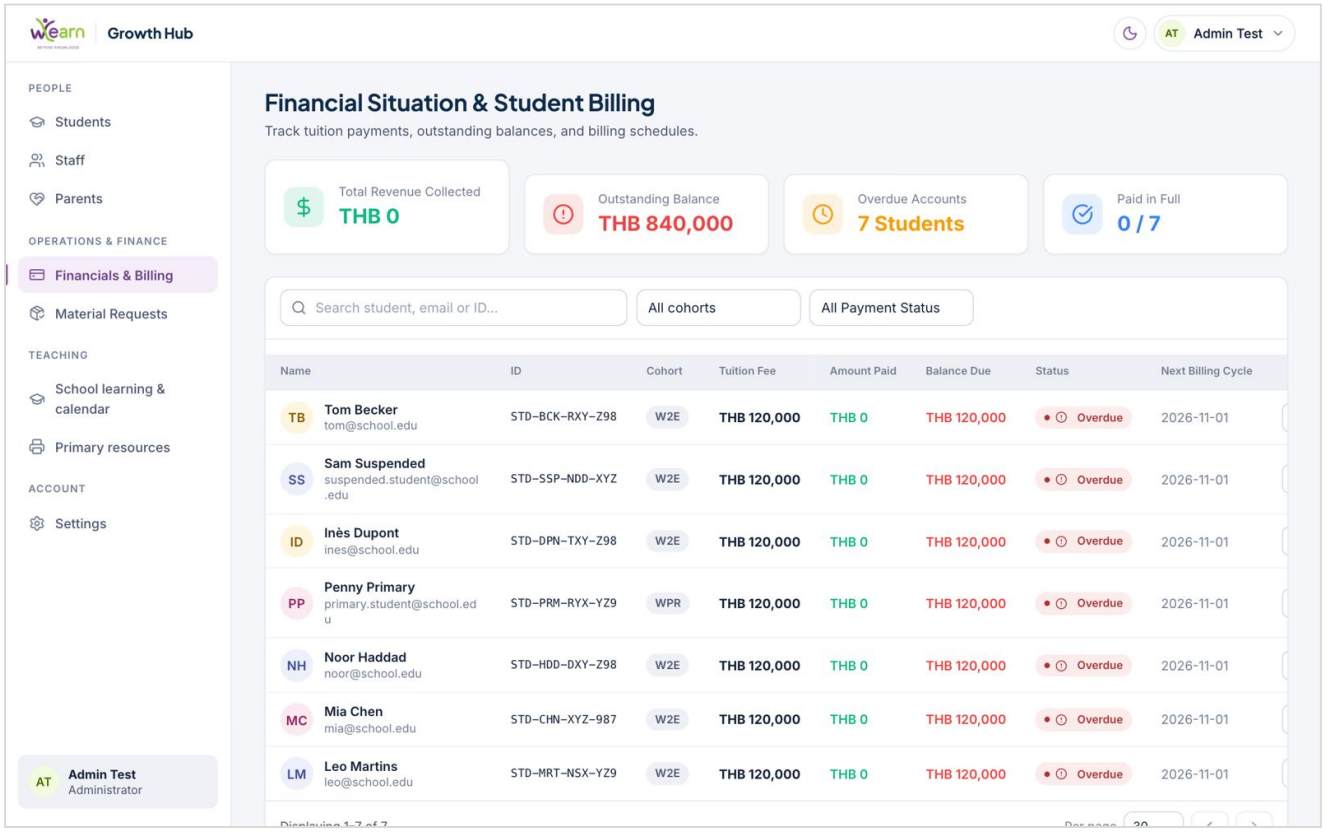

Totals update when a status changes. The request shows who asked for it and why.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 8 OF 11

Financials and billing

Real screenshot from the platform. Yours may show different data.

What to do

1. Open **Financials & Billing**.
2. Filter by Payment Status.
3. Click **Record Payment** for one test learner and enter a small amount.

YOU SHOULD SEE

Collected, outstanding and overdue totals update after a payment.

LOOK CLOSELY

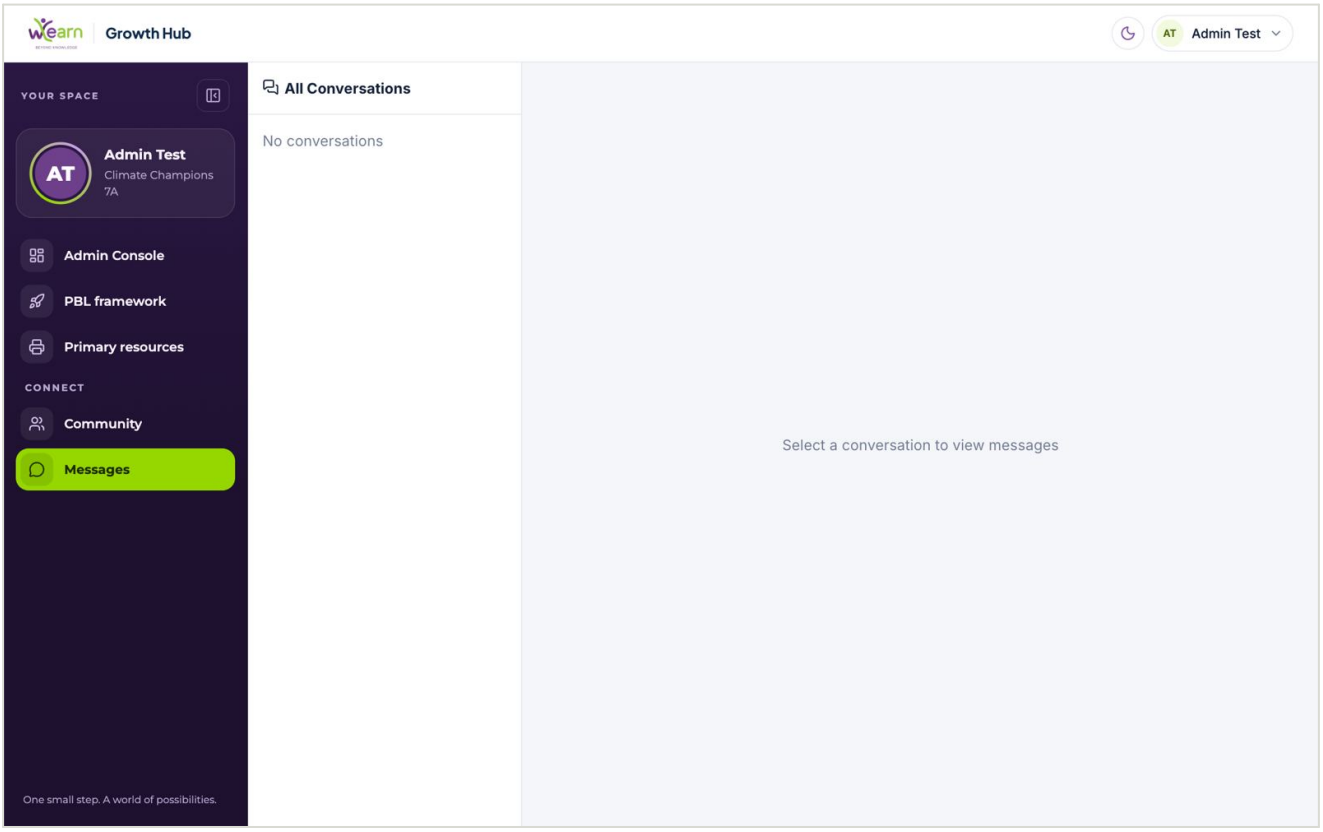

All test learners show as overdue. Tell us if the figures or wording would confuse finance staff.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 9 OF 11

Message audit

Real screenshot from the platform. Yours may show different data.

What to do

1. Open **Messages** from the left menu.
2. Open a conversation between a coach and a learner, if there is one.

YOU SHOULD SEE

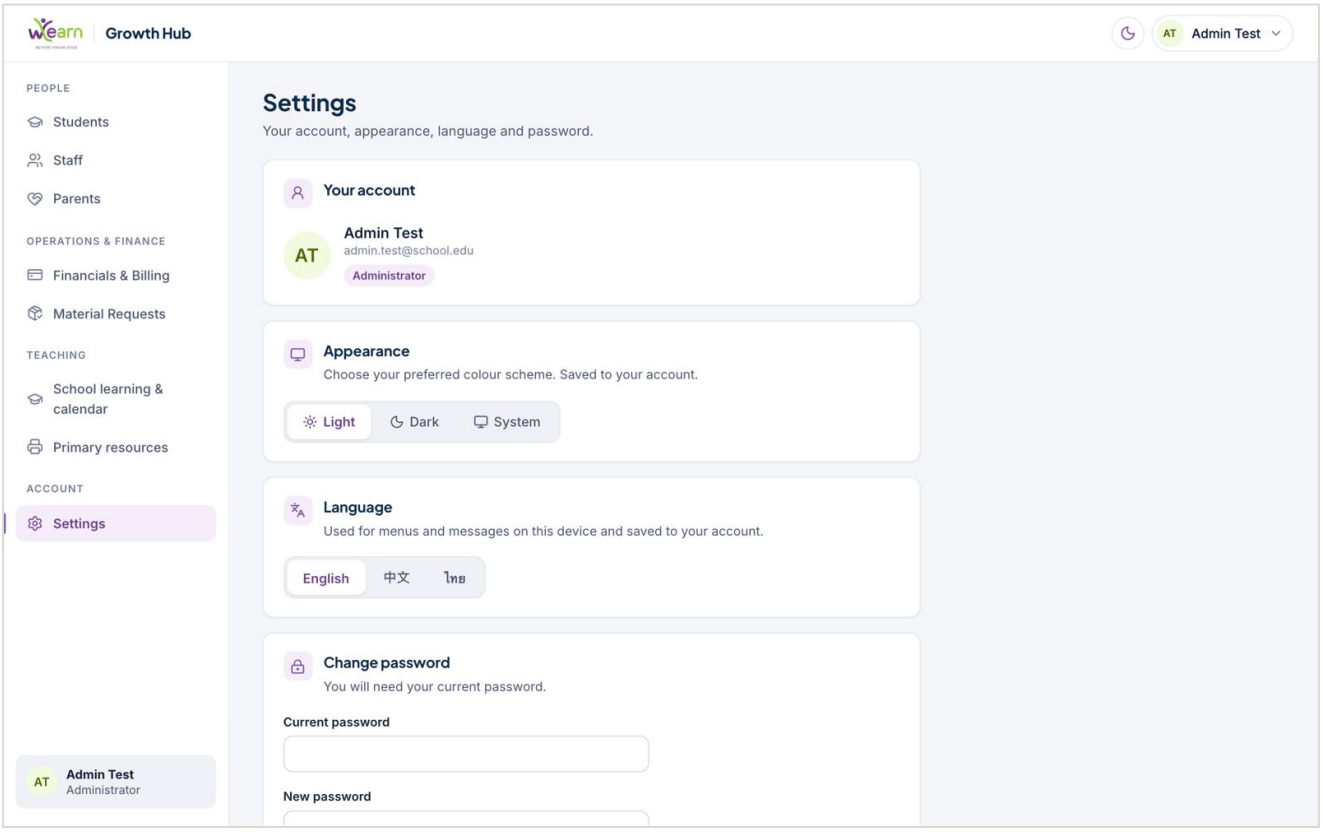

Administrators can read all conversations for safeguarding but cannot post in them.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 10 OF 11

Settings and school features

Real screenshot from the platform. Yours may show different data.

What to do

1. Open **Settings**.
2. Read **School features**. Do not switch features off unless the test lead asks.

YOU SHOULD SEE

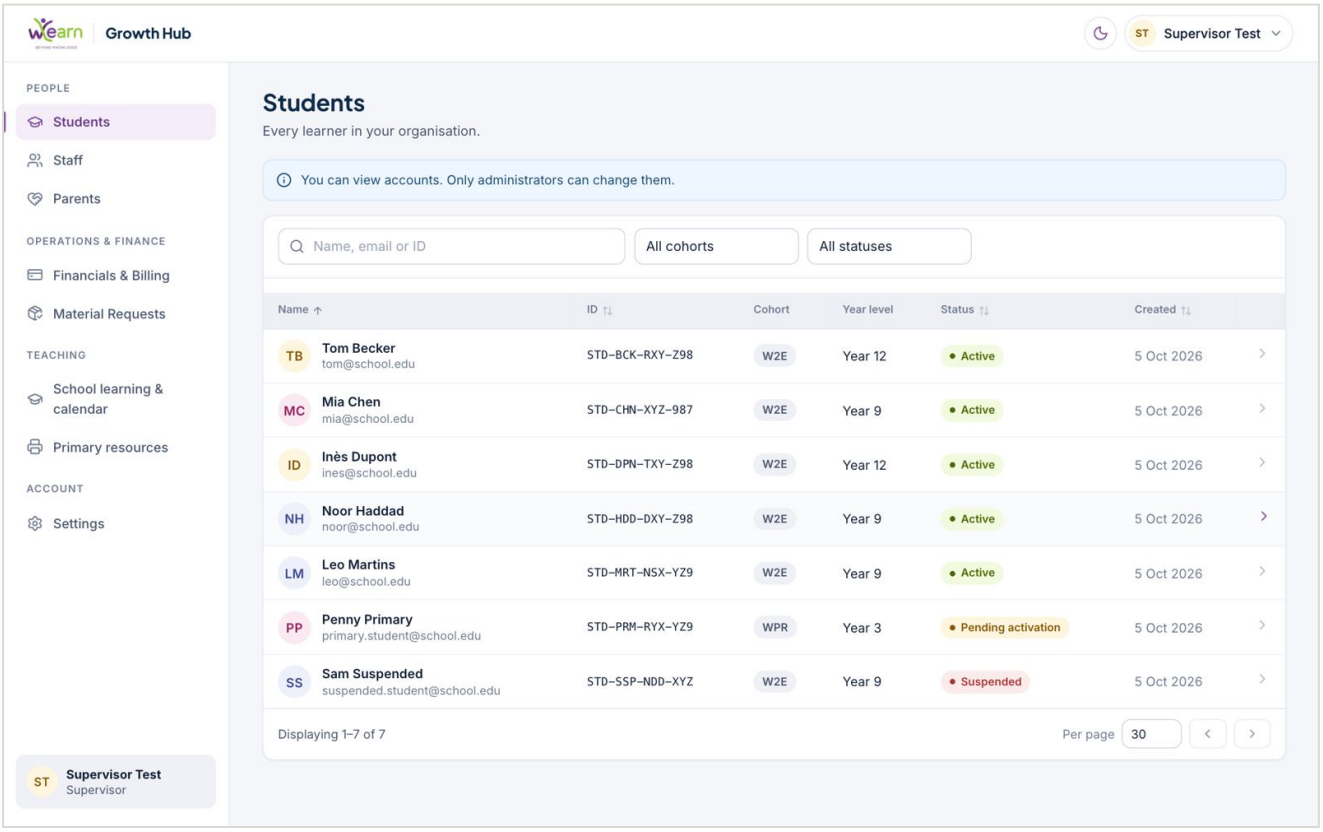

Each school has its own switches, with a clear note about when learners see the change.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

ADMIN · STEP 11 OF 11

Supervisor: view-only access

Real screenshot from the platform. Yours may show different data.

What to do

1. In a new private window, sign in as `supervisor.test@school.edu`.
2. Open Students and a student record.
3. Look for any button that changes data.

YOU SHOULD SEE

A note says “You can view accounts. Only administrators can change them.” There is no Add, Edit or Suspend button.

Result: Pass Issue Blocked Skip

What happened? What did you click, expect and see instead?

LAST PAGE

Wrap-up: the Admin dashboard overall

A few sentences is plenty. These answers help us decide what to fix first.

How easy was it to use? 1 Very hard 2 Hard 3 OK 4 Easy 5 Very easy

What worked well?

What was confusing, slow or missing?

If we fix one thing first, what should it be?

Anything else?

WHEN YOU HAVE FINISHED

Save this PDF (File > Save), keep the file name, and send it to the test lead. If you printed it, scan or photograph each page.
