BEFORE WE OPEN WELEARN.ORG

Test every feature, one screen at a time

This guide walks you through the student, coach, admin and parent dashboards using real screenshots. Each page shows exactly where to click, what to try and what a pass looks like, with space to record what you find.

We are building Growth Hub around empathy for the people who use it. Your honest first impressions, including anything confusing, slow or missing, are the most useful feedback we can get.

Test accounts and how to sign in

1. Open **https://dnd-master-73449.web.app** in Chrome, Safari or Edge. This is the test site until **welearn.org** is connected.
2. Sign in with one account below. The password for every account is **review123**.
3. Work through that role's pages in this guide, ticking Pass or Issue as you go.
4. To switch role, open the menu next to your name (top right), sign out, and sign in with the next account.
5. Use a laptop for coach and admin. Try the student dashboard on your phone too.

These accounts are for review only. Please do not share them outside the team. They will be reset before launch. Screenshots were taken on a test copy of the platform, so dates, counts and sample records on your screen may differ slightly.

ROLE	EMAIL	SCOPE	PAGES
Student Student (secondary)	`akira@welearn.org`	WPR International School · WPR Year 11 Climate	16
Coach Coach / teacher	`coach.wpr@school.edu`	WPR Year 11 Climate	11
Admin School administrator	`admin.test@school.edu`	WPR International School and Bangkok Campus	7
Parent Parent	`parent.test@school.edu`	Linked to Akira	4

SUGGESTED ORDER

Coach first (set a goal, publish the draft lesson), then student (acknowledge the goal, see the new lesson, submit evidence, ask for help), then coach again (review the evidence, see the help request), then admin (calendar, materials), then parent (check what the family sees). This order lets you check that each action reaches the right people.

Reading this guide and reporting issues

Numbered pins on each screenshot match the numbers in **Try this**, so 1 means "the control marked 1".

Tick **Pass** when everything under **You should see** happened. Tick **Issue** for anything broken, confusing, slow or missing, and write a note. Tick **Could not test** if something blocked you.

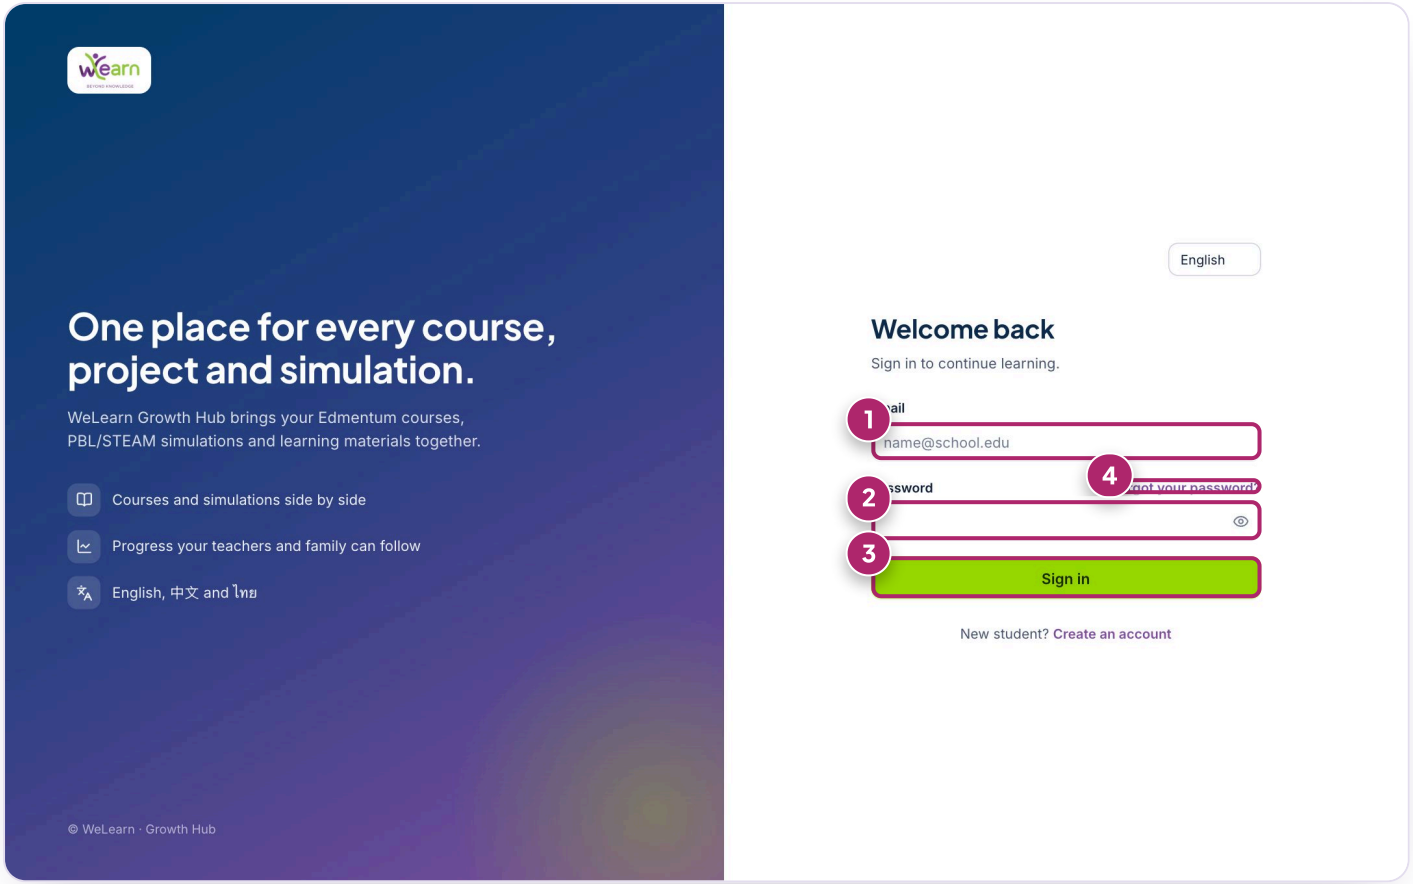

FOR EVERY ISSUE, PLEASE INCLUDE

- ✓ The account you used and the test number
- ✓ What you did and what you expected
- ✓ What happened instead (copy any message exactly)
- ✓ Device and browser (for example, iPhone · Safari)
- ✓ A screenshot if possible

HOW SERIOUS IS IT?

Blocker	Cannot continue, data is wrong, or someone sees information they should not.
Major	A feature does not work but there is a way around it.
Minor	Confusing wording, layout or small visual problems.
Idea	Something you wish it did.

Privacy issues are always Blockers: for example, a parent seeing another child, or a student seeing a draft lesson or private coach notes.

No sign-in needed

01 Sign in

TRY THIS

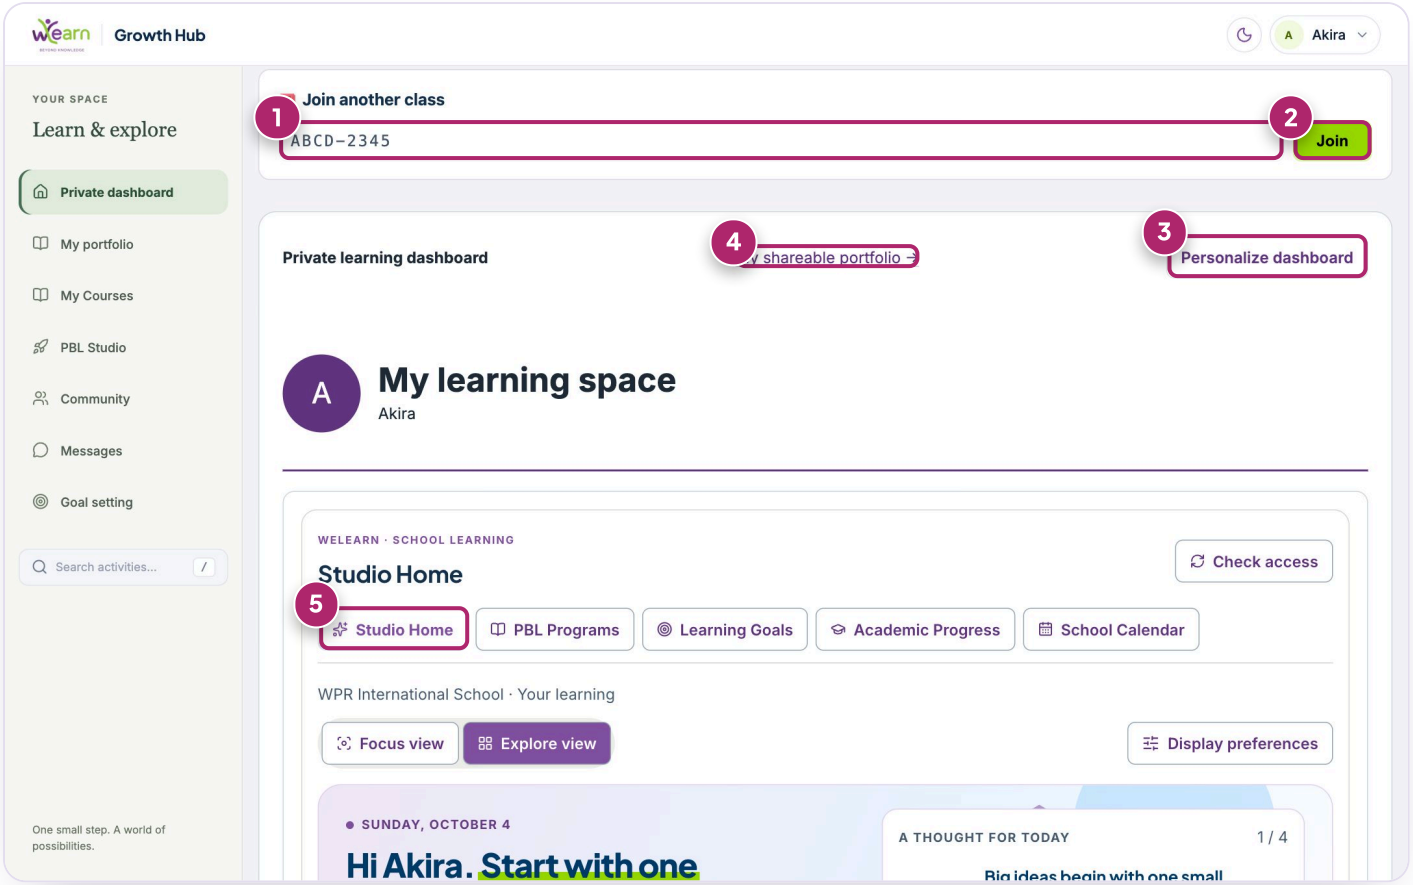

1. Type the email address for the role you are testing 1.
2. Type the password review123 2 and select Sign in 3.
3. Optional: check that Forgot your password? 4 opens the reset form. Do not submit a reset for test accounts.

YOU SHOULD SEE

- ✓ You land on the dashboard for that role within a few seconds.
- ✓ A wrong password shows a clear message and keeps you on this page.

02 Private dashboard

TRY THIS

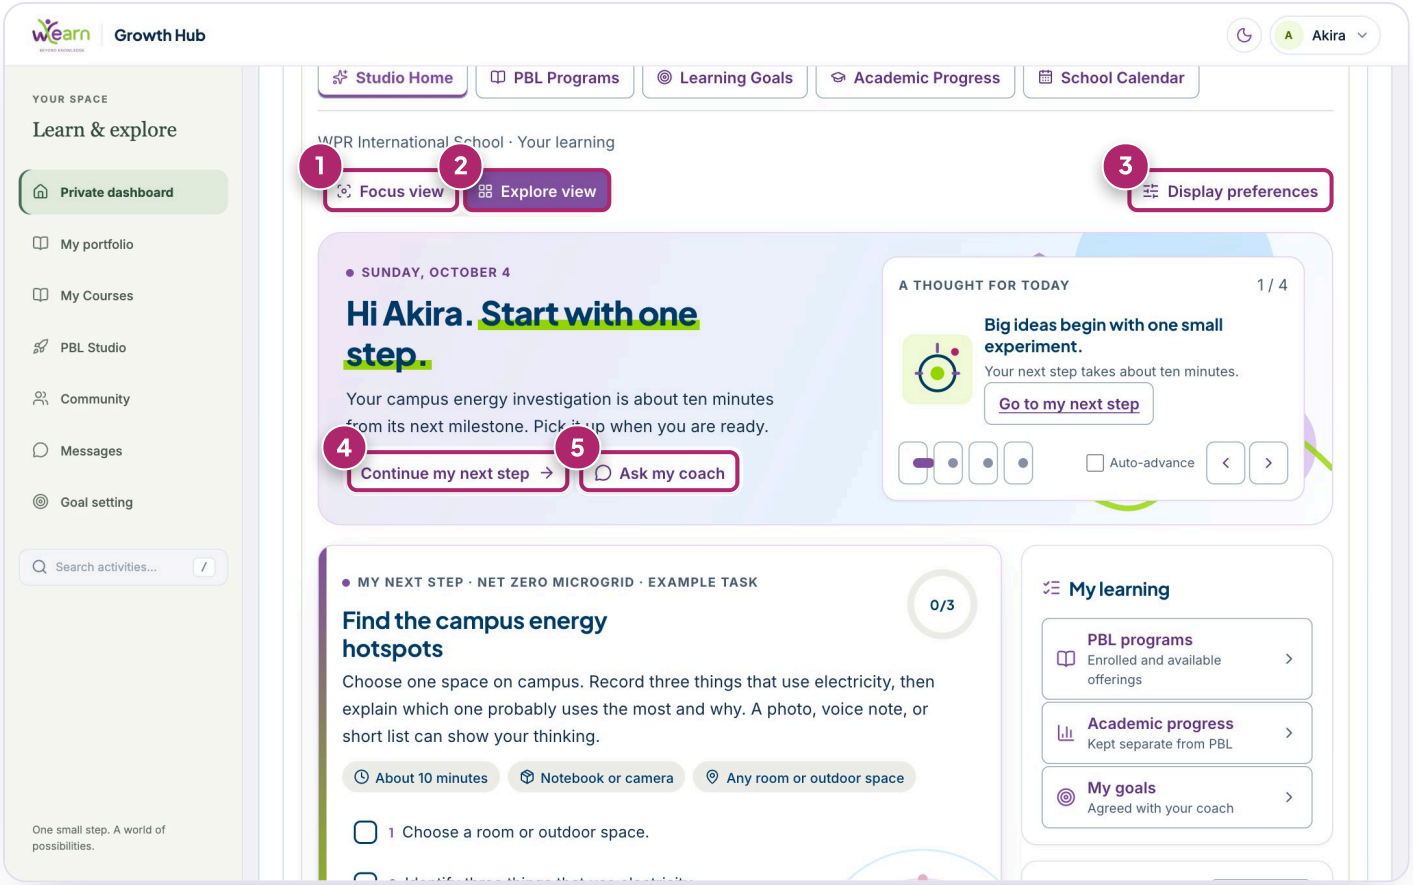

1. Look at the Join another class box 1 2. Type a made-up code and select Join: an invalid code should show a helpful message.
2. Select Personalize dashboard 3 (tested on the next pages).
3. Use My shareable portfolio 4 to open the portfolio, then come back.
4. Check the school learning tabs, starting with Studio Home 5.

YOU SHOULD SEE

- ✓ Only Akira's own information appears.
- ✓ Invalid codes never add a class.

03 Studio Home: the next step

TRY THIS

1. Switch between Focus view 1 and Explore view 2. Focus view should hide extra panels.
2. Select Continue my next step 4: the page should scroll to the task card.
3. Open Display preferences 3 (next page).

YOU SHOULD SEE

- ✓ The greeting uses the learner's first name and today's date.
- ✓ Only one clear next step is highlighted.

Sign in as **akira@welearn.org**

04 Task steps, pace and help

TRY THIS

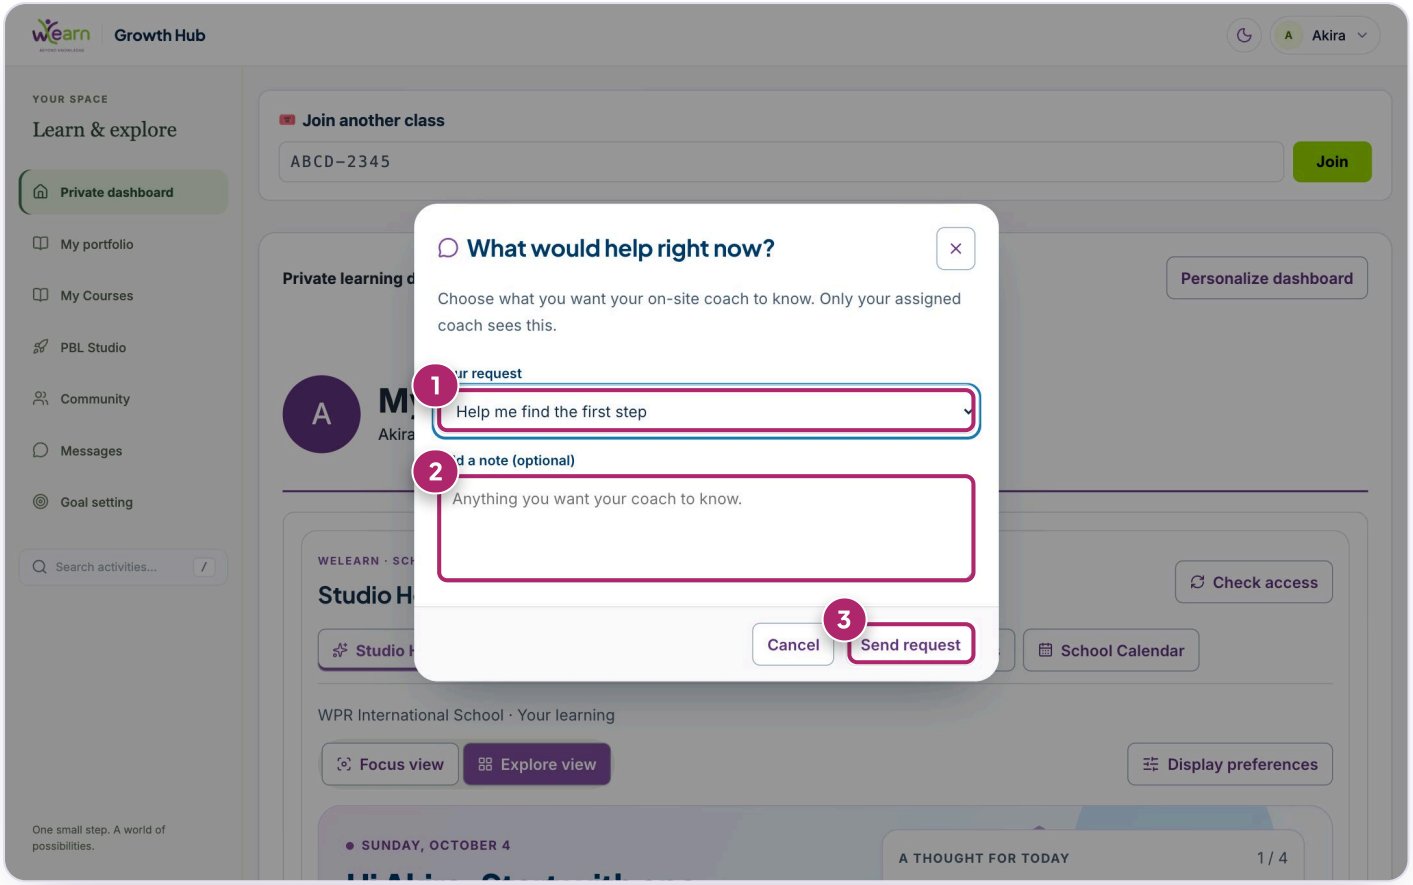

1. Tick the first step **1**. The progress ring should update.
2. Select Show my thinking **2** and add a short note or photo.
3. Choose a pace **3** and see the suggestion change.
4. Select Choose support **4** to ask the coach for help.

YOU SHOULD SEE

- ✓ Ticks are saved when you come back later.
- ✓ Changing the pace never removes work.

05 Ask my coach

TRY THIS

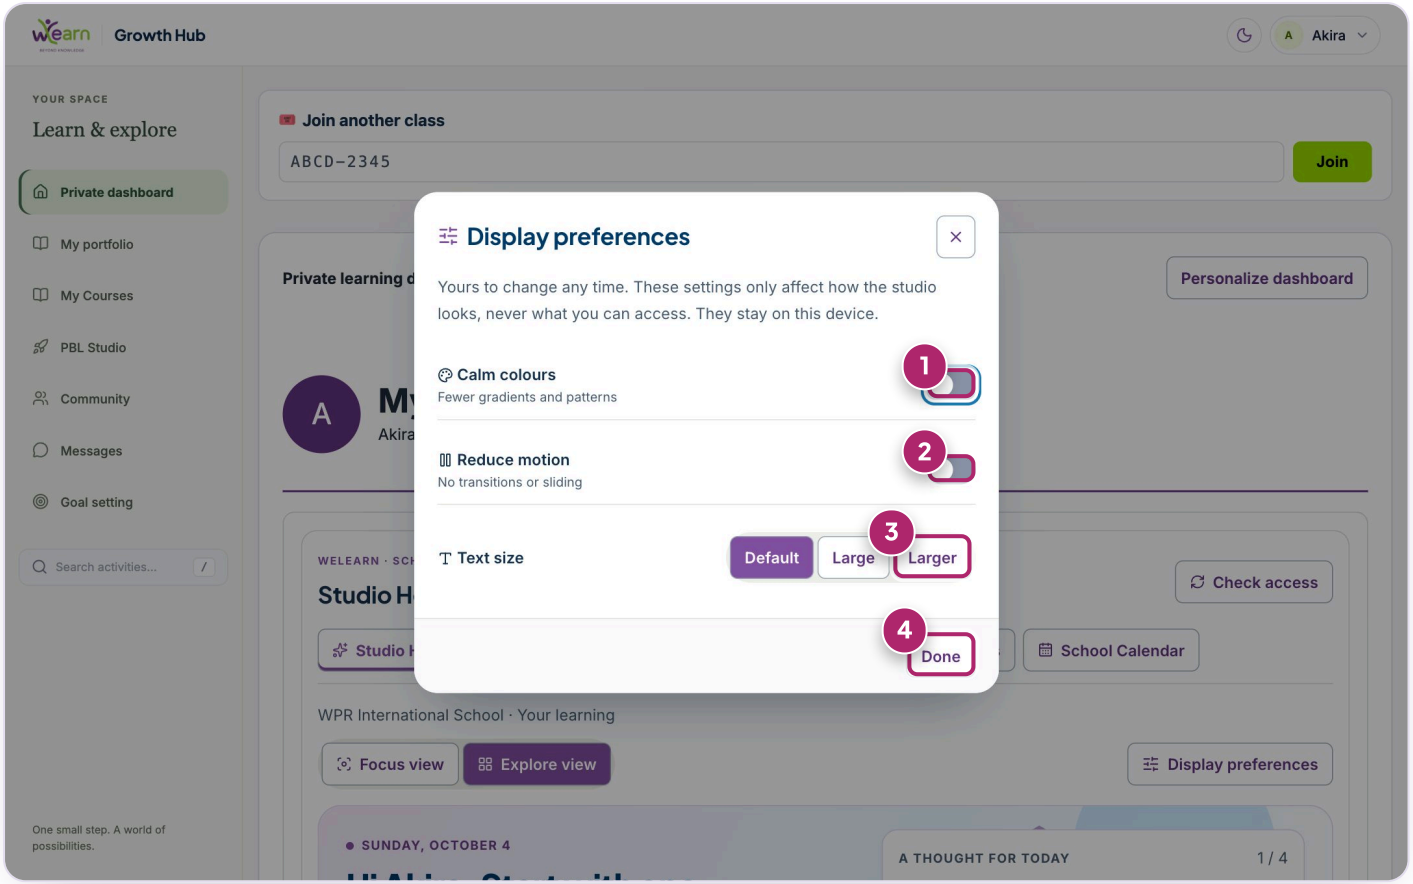

1. Choose what would help right now (1), add a short note (2) and select Send request (3).
2. Then sign in as the coach and check the request arrived (Coach section).

YOU SHOULD SEE

- ✓ A confirmation appears and the window closes.
- ✓ The note is visible only to Akira's assigned coach.

07 PBL Programs and class codes

TRY THIS

1. Select each semester program (1) and read its driving question.
2. Akira is already enrolled in Sustainable Futures. To test joining, ask the coach for a new code and enter it (2) (3).
3. Read the published lesson under Program lessons (4).
4. Scroll down to Submit lesson evidence (next page).

YOU SHOULD SEE

- ✓ Only published lessons appear. Drafts stay hidden from students.
- ✓ A used or expired code shows a clear message.

☐ Pass ☐ Issue ☐ Could not test

08 Submit lesson evidence

TRY THIS

1. Choose the lesson 2, write what you found 3, and optionally add an https:// link 4.
2. Select the submit button 5.

YOU SHOULD SEE

- ✓ The evidence appears under Lesson evidence & feedback with status Submitted.
- ✓ Submitting the same evidence twice does not create a duplicate.
- ✓ Links that do not start with https:// are refused.

11 School calendar

TRY THIS

1. Change the month 1 and switch between Year, Month and Agenda views 2.
2. Find the Sustainable Futures showcase on 16 October 2026.

YOU SHOULD SEE

- ✓ Students can read the calendar but see no add, edit or delete buttons.

Sign in as **akira@welearn.org**

12 Personalize the dashboard

TRY THIS

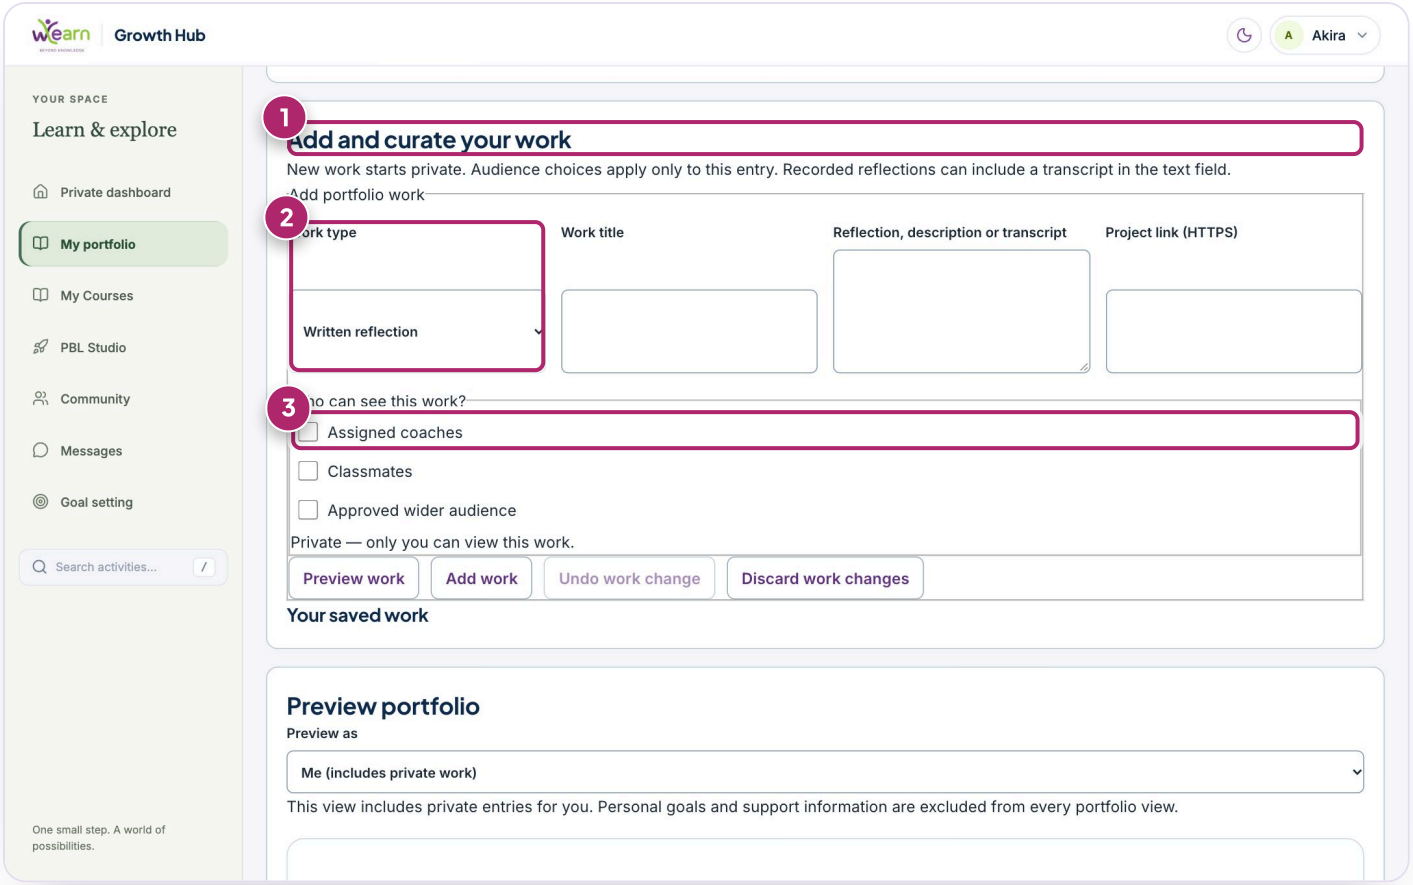

1. Change the heading 1 and accent colour 2: the preview updates straight away.
2. Try Undo last change 4, then Save personalization 3.
3. Move a widget with its handle, or with Alt + arrow keys.
4. Restore default layout 5 puts everything back.

YOU SHOULD SEE

- ✓ Changes stay after reloading the page.
- ✓ Private goals written here never appear on the portfolio.

15 PBL Studio and AI co-pilot

TRY THIS

1. In My project 1, select a phase 2 and tick a task 3.
2. Ask the AI co-pilot 5 a question about the activity.
3. Open Evidence portfolio 4 and add an evidence entry.

YOU SHOULD SEE

- ✓ The AI gives age-appropriate help and does not do the work for the learner.
- ✓ Ticks and evidence are still there after reloading.

16 Goal-setting wizard

TRY THIS

1. Write an idea 1 or pick a starter 2.
2. Select Continue 3 and complete the plan and review steps.

YOU SHOULD SEE

- ✓ The finished goal appears in the goals strip on the dashboard.
- ✓ Maybe later closes the wizard without saving.

Sign in as **akira@welearn.org**

17 Community and messages

TRY THIS

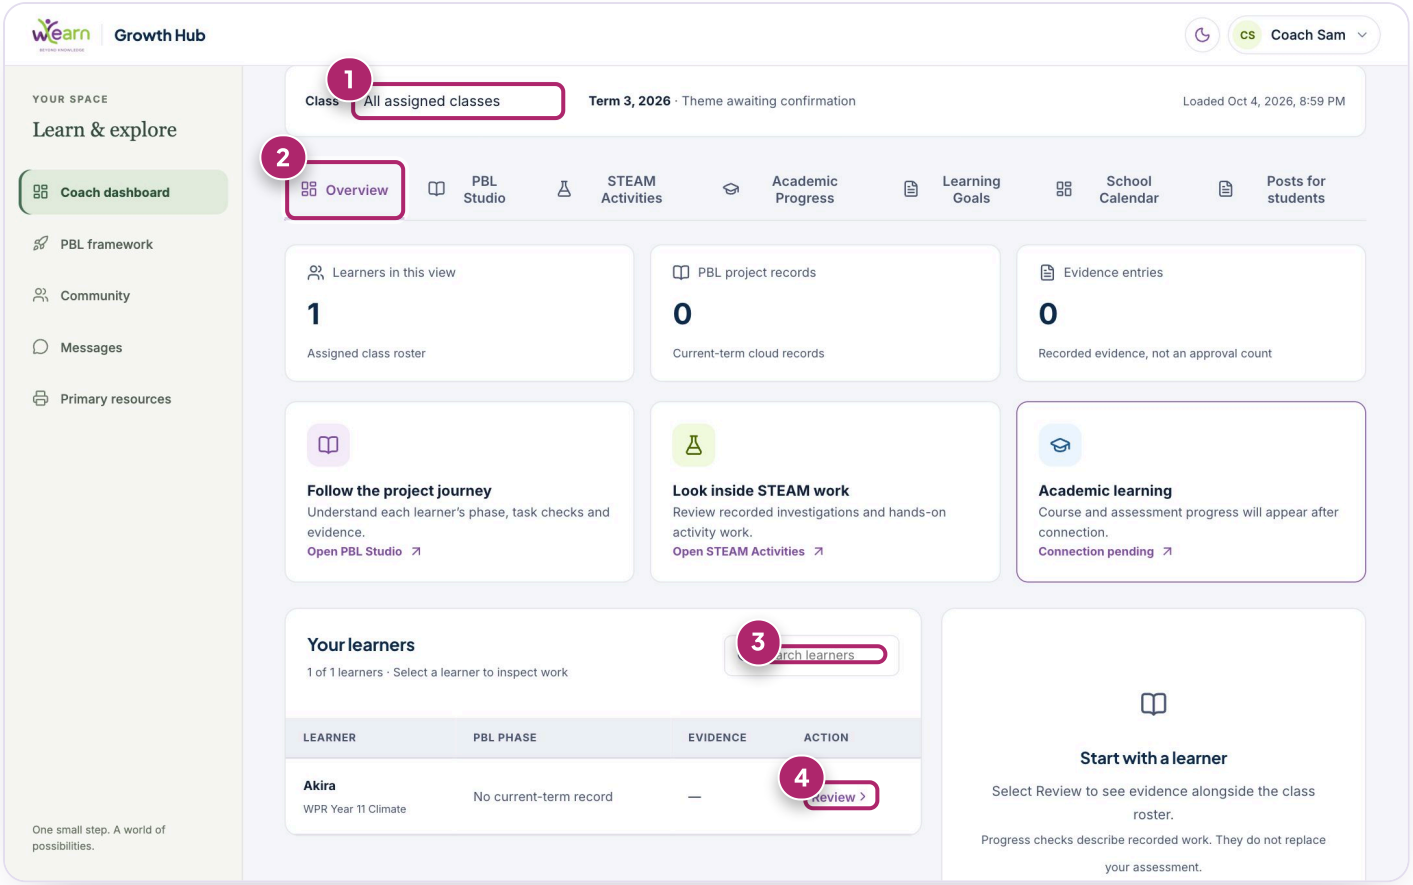

1. Write a short post (1), optionally add an image (2), and select Post (3).
2. Open Messages from the menu and start a conversation with the coach.

YOU SHOULD SEE

- ✓ The post appears for classmates in the same school.
- ✓ Messages are private between the two people.

23 Give feedback on evidence

TRY THIS

1. Write constructive feedback 1.
2. Choose Reviewed or Revision requested 2, then Publish feedback 3.
3. Sign in as Akira and check the feedback appears.

YOU SHOULD SEE

✓ If two coaches review at once, the second sees a "reload" message instead of overwriting.

Sign in as **coach.wpr@school.edu**

24 Set and confirm goals

TRY THIS

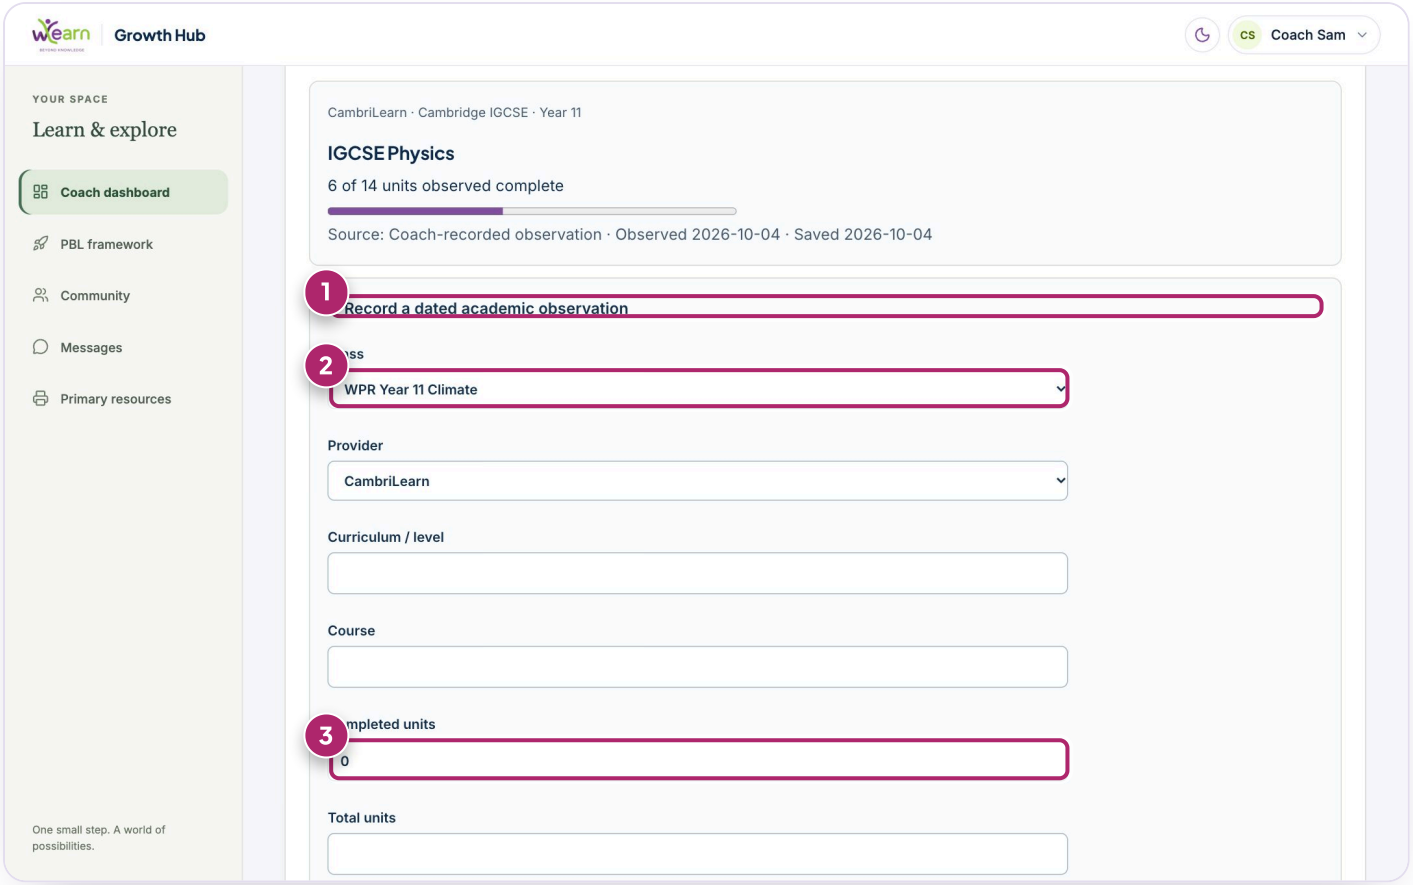

1. Choose Akira (1), write a measurable goal (2) and a due date, then Assign goal (3).
2. After Akira acknowledges it, select Confirm achieved (4).

YOU SHOULD SEE

- ✓ The goal shows "Awaiting learner acknowledgement" until Akira accepts it.
- ✓ The parent account can see agreed goals.

34 Manage the school calendar

TRY THIS

1. Review the 2026–2027 reference dates 1 before importing (already imported on this system).
2. Switch the View to Agenda (shown here) to check events.
3. Edit an event 2. Use Delete event 3 only on your own test events.

YOU SHOULD SEE

- ✓ The event appears for the coach, student and parent within about 30 seconds.
- ✓ Only the admin sees add, edit and delete controls.

Sign in as **admin.test@school.edu**

35 Add a school event

TRY THIS

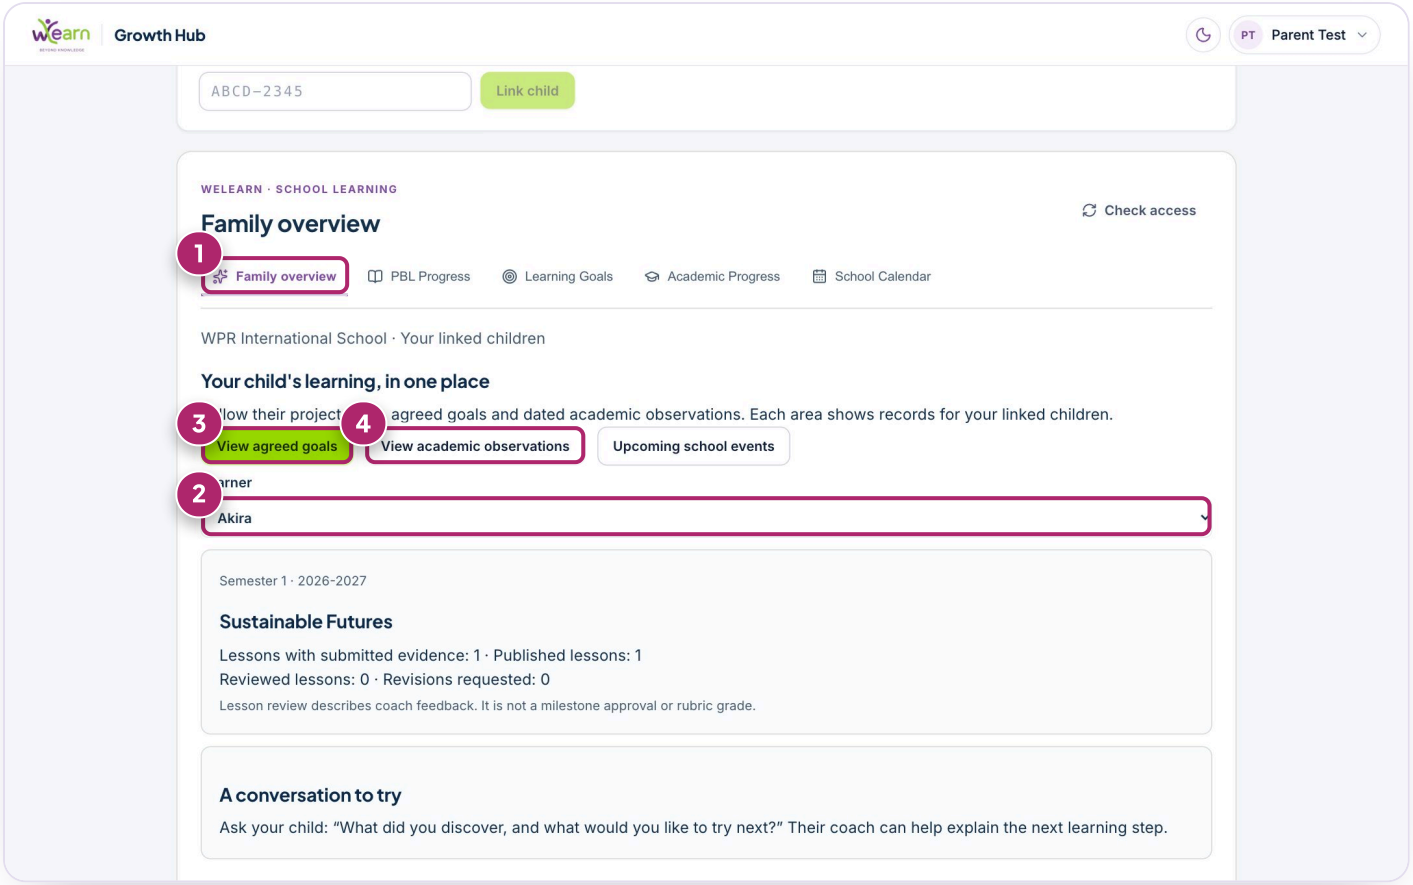

1. Under Add school event 1, enter a title 2 and dates 3.
2. Select Save event 4, then sign in as the student and parent to check it appears.
3. Edit it, then cancel or delete it to tidy up.

YOU SHOULD SEE

- ✓ The event appears on every role's calendar within about 30 seconds.
- ✓ An end date before the start date is refused.

38 PBL progress and goals

TRY THIS

1. Open PBL Progress (1): lesson counts and latest status.
2. Open Learning Goals (2): the goal Coach Sam set.

YOU SHOULD SEE

- ✓ Parents see summaries, not the raw evidence or other learners' names.
- ✓ There are no edit buttons anywhere for parents.

Sign in as **parent.test@school.edu**

39 Academic progress and calendar

TRY THIS

1. Open Academic Progress 1 and check the source and date of each record.
2. Open School Calendar 2 and find the showcase on 16 October.

YOU SHOULD SEE

- ✓ The calendar matches what the student and coach see.

Overall, how did it feel to use? _____

The one thing we should fix before students try it: _____

Next: after this staff round, students from different age groups will test the platform under supervision. Teen Quest (levels, badges and streaks for secondary learners) is built and will be added to the test site in the next release.
